## FIX NEW POLICY TOWARD MEXICO

President and Cabinet Agree on Plan of Action.

### WILSON PREPARES STATEMENT

Notice Will Be Served on All Mexican Factions That Unless They Themselves Compose the Situation Some Other Means Will Be Found by the United States to Restore Order.

Washington, June 2.—President Wilson and his cabinet adopted a new policy to be pursued by the United States toward Mexico. It has for its object restoration of order and the relief of millions of noncombatants from the devastations of Mexico's military elements which have brought about conditions regarded as intolerable.

The president read to the cabinet a statement, which is to be communicated to the leaders of all Mexican factions, serving notice that unless they themselves compose the situation some other means will be found by the United States to bring about the establishment of a stable government in the republic. The statement was approved after prolonged discussion.

The specific course the United States will pursue, in the event the contending factions fail to agree, is not outlined in the president's statement, but the administration's present purpose is to move moral support to a coalition of the best elements in Mexico and accord the government thereby created formal recognition. With such recognition would come an embargo on arms, permitting the constituted government to receive munitions of war to the exclusion of all other elements and factions.

#### May Require Intervention.

That the government's policy, if successful in this course, might require intervention ultimately has been considered and the intention to insist on a settlement has not been swayed by the possible necessity of such action. In high executive quarters, however, confidence prevails that the expression of the American government's attitude will clear up misapprehensions as to its intentions that have existed in Mexico and will bring about the desired coalition government.

The administration's policy is the culmination of several weeks of conference between the president and his official family. The return of Duval West, who spent three months personally investigating conditions in Mexico for the president, was the deciding factor. He brought back reports showing that the food situation was serious, that the country crops had failed and industries were exhausted, that the soil had not been tilled for lack of cattle, which had been slaughtered or exported for revenue, and that a terrible condition of affairs for the large masses of innocent noncombatants was ahead unless remedial measures were undertaken.

The American Red Cross has already laid plans for the relief work to be carried out in co-operation with the state department. The Carranza agency here has issued several statements denying the shortage of food and saying the stories of famine are exaggerated, but the Washington government is not taking these into consideration because of its reports through diplomatic and consular sources and the personal investigation of Mr. West.

### ENGLAND PAYS FOR COTTON

Advances \$300,000 on American Boat Cargoes Seized.

London, June 2.—The foreign office, through the board of trade, has advanced £50,000 (\$300,000) on the cargoes of the steamers Livonia and De-fido, common ships owned in New York and now held at Plymouth, pending a final settlement of the prince of the cotton on board.

### DR. DERNBURG WILL RETURN TO GERMANY.

New York, June 2.—Dr. Bernhard Dernburg, Germany's unofficial agent in the United States, is to return to Germany. Reports have been current that Dr. Dernburg would remain secluded here and would not attempt to cross the seas. It is now known that he will sail next week on one of the Scandinavian liners for Norway or Denmark. Upon his arrival he will proceed at once to Germany.

### PAGE IS STRICTLY NEUTRAL

American Ambassador to England Is Keeping in Background.

London, June 2.—The American ambassador at London, Walter H. Page, considers himself under the necessity of leading a sequestered life in these trying times, according to L. H. Defries.

Mr. Defries, in seconding the motion for the election of Lord Curzon as president of the Atlantic union, said that they had hoped to have the American ambassador present, but he declined lest some misconceptions should arise.

### BAVARIANS CAPTURE FORTS AT PRZEMYSL

Take Three Strong Positions From the Russians.

Berlin, June 2.—The war office gave out the following statement:

"In front of Przemyśl Bavarian troops stormed Forts 10-a, 11-a and 12, west of Dunkowiczki, capturing the remainder of a garrison of 1,400 men, with eighteen heavy and five light cannon.

"The Russians attempted to escape their fate by an attack in masses against our positions east of Jaroslau, but failed, an enormous number of dead covering the battlefield before our front.

"The conquerors of Zwinn (a ridge in the Carpathians), the Prussian guard under cover of the Bavarian general, Count Bothner, stormed a strongly fortified place on the Stry and brought through Russian positions near and northwest of Stry. Up to the present time we have captured in this region fifty-three officers, 9,182 men, eight cannon and fifteen machine guns."

### LONE BANDIT GETS \$500

Citizens' Savings and Loan Society Office Robbed.

Spokane, Wash., June 2.—A lone robber entered the office of the Citizens' Savings and Loan society, backed the bookkeeper, George F. Preston, into a rear room and escaped with \$500.

The office of the society has been robbed twice within three months in the same manner.

### PEARSON WARRANT REFUSED

Milwaukee District Attorney Declines Charge of Murder.

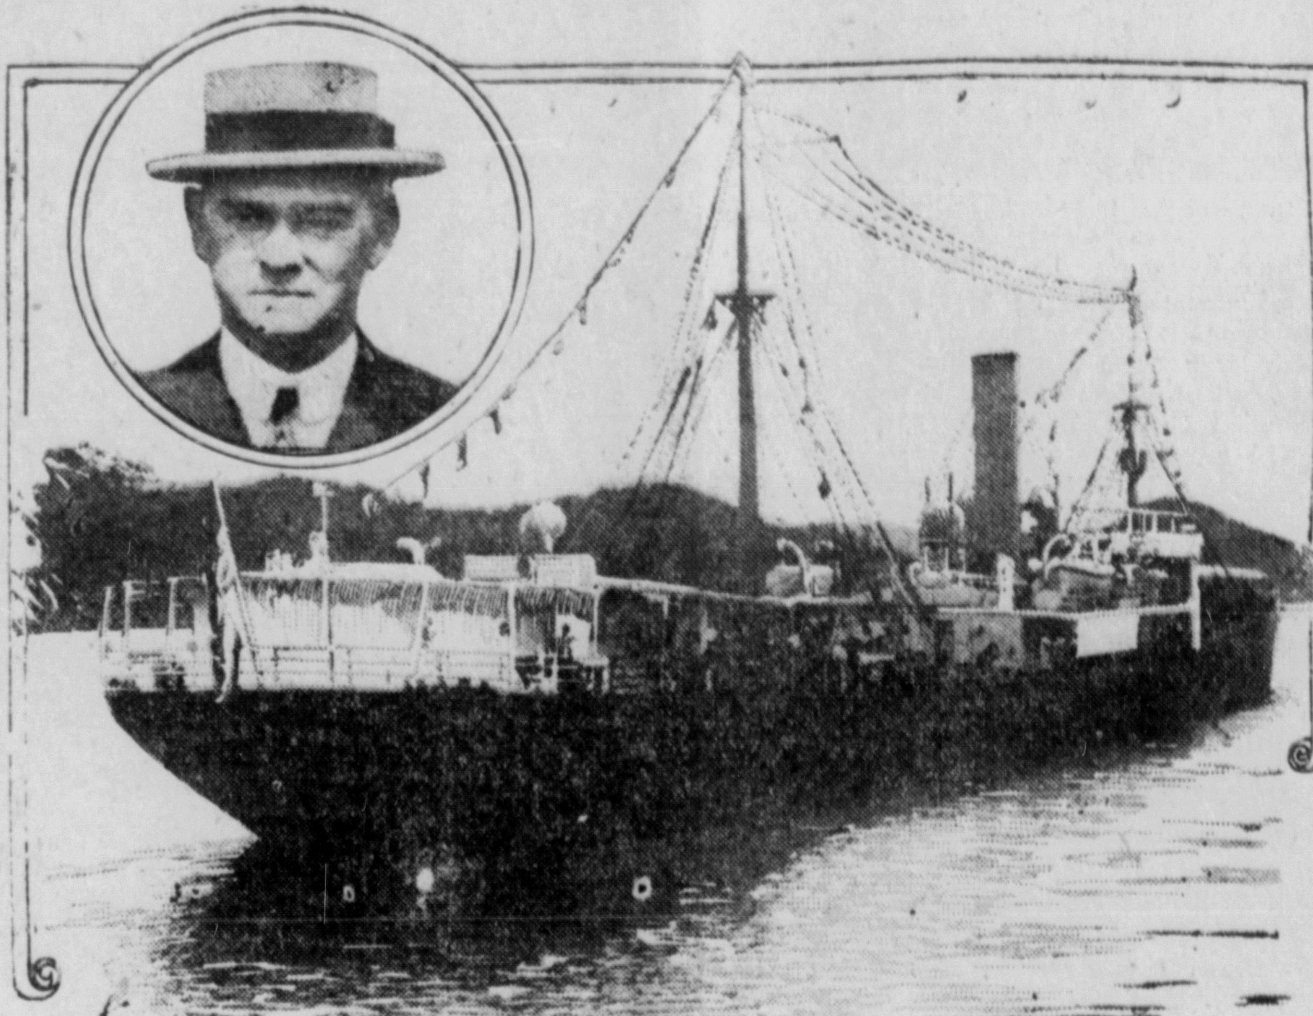

Milwaukee, June 2.—District Attorney W. C. Zabel refused to issue a warrant applied for by Attorney Henry Cochems on behalf of General Samuel Pearson, charging officials of the Allis-Chalmers company with criminal conspiracy in connection with the alleged manufacture of war munitions for the allies.

### J. J. HILL NAMED CONFEEE

Chosen to Discuss Export Matters With Federal Board.

New York, June 2.—The National Foreign Trade council, according to a statement issued, has appointed John D. Ryan, president of the United States Steel corporation, and James J. Hill, chairman of the board of directors of the Great Northern railway, as a committee to confer with the federal trade commission, when that body begins its hearings here this week on matters which confront American exporters.

The Nebraska

Copyright Brown Bros.

The Nebraska, the first ship to go through the Panama Canal, was the victim of a torpedo or mine off the coast of Ireland, Tuesday, May 18. The photograph here shown of the vessel was taken as she went through the canal in gala array. She was struck while about forty miles southwest of Fastnet, Ireland, and, down at the bow, she started back to Queenstown.

When the vessel left San Francisco in August for her trip through the Panama Canal there was much ceremony.

The mayor christened her for the trip.

She is an American built, American owned, and American manned vessel. She was launched at Camden, N. J., in 1902, for the American-Hawaiian Line. She is of 4,407 tons gross, 160 feet long, and 46 feet beam.

The Nebraska left New York for Liverpool on May 7, with a general cargo, under charter to the Atlantic Transport Line, for one voyage. She discharged her cargo and on May 24

left Liverpool in ballast for the Delaware Capes.

The charter of the Atlantic Transport Line expired when the Nebraska delivered her cargo in Liverpool. Even though she might have taken munitions of war to England on her eastward voyage she was strictly an American ship, in ballast, bound for an American port when she was damaged. Before the war the Nebraska plied between New York and Hawaii.

## PRESIDENT WILSON'S MESSAGE TO MEXICAN WARRING FACTIONS

(By United Press)

Washington, June 2.—The statement of President Wilson made public this afternoon in regard to the Mexican situations demands that the Mexican leaders act together and act promptly for the relief and redemption of their prostrate country. In open review of the Mexican situation President Wilson said that present conditions would no longer be tolerated, and unless the Mexican leaders act the president warns them that this country will be constrained to decide what means the United States can employ in order to help Mexico save herself and serve her people.

The text of President Wilson's statement follows:

For more than two years revolutionary conditions have existed in Mexico, the purpose of that revolution being to rid Mexico of the men who ignored the constitution of the republic and used their powers in contempt of right and with these purposes the people of the United States have generously sympathized. But the leaders of the revolution at the very hour of their success have disregarded and then turned their arms against one another, all professing the same object.

They are unwilling to cooperate, and the central authority at Mexico City was no sooner set up than it was undermined and authority was denied by those who were expected to support it.

Mexico is apparently no nearer a solution of her tragical troubles than when the revolution was first kindled and she has been swept by civil war as by fire. Her crops have been destroyed, her fields lie unseeded, her work cattle have been confiscated for the use of the armed factions and her people have fled to the mountains to escape being drawn into unavailing bloodshed and no man seems to see the way or to be able to lead to peace and settled conditions.

There is no proper protection either for her own citizens or for the citizens of other nations resident within her borders and at work within her territory.

Mexico is starving and without government.

Under these circumstances the people and the government of the United States cannot stand indifferently by and do nothing to serve their neighbor. They want nothing for themselves in Mexico. Least of all do they desire to settle the affairs for her or claim any right to do so—but neither do they wish to see utter ruin come upon her, and they deem it their duty as friends and neighbors to lend any aid they properly can to any instrumentality which promises to be effective in bringing about a settlement which will embody the real object of the revolution and for the constitutional government and the rights of the people.

"Patriotic Mexicans are sick at heart and cry out for peace and for every self sacrifice necessary to produce it, and the people who cry for food will soon hate as much as they fear every man in the country or out of it who stands between them and their daily bread.

It is time, therefore, that the government of the United States frankly state the policy which in these extraordinary circumstances becomes its duty to adopt, and which it must presently do, but has not hitherto felt at liberty to do, to lend active moral support to some man or group of men if such may be found, who can rally the suffering people of Mexico to their support, if it is impossible to unite the warring factions of the country, and return to the constitutional republic, so long in abeyance, and set up a government at Mexico City

which the great powers of the world would recognize and deal with, a government with whom the program of the revolution will be law and not merely platform.

I therefore publicly and very solemnly call upon the leaders of the factions in Mexico to act, to act together, to act promptly for the relief and redemption of the prostrate country, and I feel it my duty to tell them that if they cannot accommodate their differences and unite for this great purpose within a very short time this government will be constrained to decide what means must be employed by the United States in order to help Mexico save herself and serve her people.

### Avert Tragic Meeting

(By United Press)

Washington, June 2.—Ambassador Van Bernstorff called on President Wilson this morning and engaged in a half hour's talk. Two minutes before Van Bernstorff left the Italian ambassador called to see the president also. The attendants narrowly averted a tragic meeting. Officials refused comment on the talk between the president and Ambassador Van Bernstorff and detectives prevented reporters getting close to the German ambassador as he was leaving. Questions were shouted at him and his nodded reply was "nothing doing," it is believed, however, that he told the president Germany was ready to do all that was required in the way of reparation wherever it could be shown that American rights had been infringed upon; that an understanding must be had between the two nations concerning armed and unarmed vessels, and acting upon such mutual information as near as possible. It is also believed he told the president that the United States could hardly expect that Germany would abandon marine warfare unless Britain abandoned her starvation policy, and it is also believed that the visit will probably give President Wilson some thoughts for preparing the next series of notes to Germany.

## WILSON ASKED TO KEEP OUT OF WAR

American Independence Union Pledges Fealty.

New York, June 2.—Dr. G. E. Berke-meyer, chairman of the executive committee of the American Independence union, of which Richard Bartholdt, former representative in congress from Missouri, is president, and Herman Ridder, honorary president, signed a message sent to President Wilson, embodying a resolution passed by the committee, which appeals for a continuance of the nation's neutrality in the war.

"We feel," the message reads, "that the greatest danger which threatens us is the violation of that neutrality which you have so solemnly enjoined on our nation at the outbreak of the war. We beseech you to use every means consistent with the honor and dignity of our country to uphold this neutrality."

The message says that "only the one party has full opportunity of presenting its side" of "the great question now agitating our country," and that "there are 20,000,000 to 25,000,000 loyal citizens of the United States who are in sympathy with Germany and Austria and profoundly convinced of their righteous cause."

The message assures the president of the "unhesitating loyalty" of those in whose behalf it is sent and of their "unflinching fidelity" to the cause of their country.

### URGES FRANK BE HANGED

Delegation Asks Prison Body to Refuse Clemency.

Atlanta, Ga., June 2.—The Georgia prison commission granted a hearing to a delegation, which presented the protest of a mass meeting in Marietta against commutation of Leo M. Frank's death sentence. Mary Phagan, of whose murder Frank was convicted, formerly lived at Marietta.

Spokesmen of the delegation said they represented almost the entire population of Cobb county.

They asserted that the prisoner had a fair trial and that there was no ground for commutation.

Waterloo, Ia., June 2.—Professor C. S. Longacre of Washington, D. C., was cheered when he said, addressing the annual camp meeting of the Seventh Day Adventists here, that "Turkey's fate in Europe and Asia will close the great drama of earthly history. The downfall of Turkey in Asia will constitute the last trumpet blast announcing the death knell of all the nations in the battle of Armageddon. The driving of the Turks out of Europe, according to the prophecies, will just precede the final judgment day and the great battle of Armageddon, where all the armies of the nations are to fight their last battle."

## WILSON IS BUSY PREPARING NOTE

President Listens to Views of Cabinet Members.

### WILL ASK PROMPT ANSWER

Representations Will Be Made to Germany Inquiring Whether That Government Intends, in the Future, to Be Guided by the Accepted Principles of International Law and Rights of Neutrals.

Washington, June 2.—President Wilson determined that the United States must ascertain definitely and very promptly from Germany whether the imperial German government intends, in the future, to be guided by the accepted principles of international law and the rights of neutrals or to follow its own rules of maritime warfare.

The president listened to a varied expression of opinion at a meeting of his cabinet, taking little part in the discussion himself. Later he began the preparation of a note to be dispatched before the end of this week, embodying his own ideas and what seemed to him the consensus of his official family.

The verdict of a majority of the cabinet was that the German reply to the American note, following the sinking of the Lusitania, was unresponsive and unsatisfactory, disregarded the good will of the United States, doubted the facts and disclaimed all blame for the destruction of the merchantman with American lives.

The questions of fact raised by Germany were regarded as irrelevant at this time.

#### Must Obtain Early Answer.

The trend of opinion was that the United States must inquire and obtain an early answer as to whether Germany intends to recognize the hitherto accepted principle that neutrals may travel anywhere on the high seas on unarmed merchant ships, even if carrying contraband, whether or not such vessels carry contraband, and that merchantmen which do not resist capture must be visited and searched and the passengers and crew transferred to a place of safety before the vessel is destroyed.

An unfavorable answer to this inquiry would lead, it was predicted in official quarters, to a severance of diplomatic relations, on the grounds that the United States could not continue intercourse with a government which repudiated these principles.

Should Germany accept the principle in a way that would constitute a guarantee for the future the American government would reiterate its demand for a "strict accountability" for violations of this principle and killing of Americans in the torpedoing without warning of the Lusitania.

#### Avoid Technical Discussion.

The decision to base the American note on the principles of international law to obtain an affirmative or negative reply, and not enter into a technical discussion of details raised in the German communication, which avoided the main issues, was the single development of the cabinet council.

Some of the cabinet members favored even excluding any reference to the facts asked for by Germany, settling first the point as to whether Germany intended to disregard the American warning of last February that it would insist upon the exercise of the right to visit and search with respect to vessels on which Americans were traveling.

No announcements were made after the meeting adjourned. Cabinet officers indicated, however, that the president would not dispatch the second note to Germany until every phase of the case, as well as the government's future policy, had been fully discussed.

Officials reiterated that the United States had absolute proof that the Lusitania was unarmed—that details of an investigation made by customs inspectors at New York before the Lusitania sailed, the assurances of the British government that no merchantman would be permitted to sail armed from the United States and a report by Collector Malone on all the articles in the Lusitania's cargo, including ammunition, were before the Washington government when the note of May 13 was written by the president.

The questions of fact raised by Germany were regarded as irrelevant at this time.

Must Obtain Early Answer.

The trend of opinion was that the United States must inquire and obtain an early answer as to whether Germany intends to recognize the hitherto accepted principle that neutrals may travel anywhere on the high seas on unarmed merchant ships, even if carrying contraband, whether or not such vessels carry contraband, and that merchantmen which do not resist capture must be visited and searched and the passengers and crew transferred to a place of safety before the vessel is destroyed.

An unfavorable answer to this inquiry would lead, it was predicted in official quarters, to a severance of diplomatic relations, on the grounds that the United States could not continue intercourse with a government which repudiated these principles.

Should Germany accept the principle in a way that would constitute a guarantee for the future the American government would reiterate its demand for a "strict accountability" for violations of this principle and killing of Americans in the torpedoing without warning of the Lusitania.

Avoid Technical Discussion.

The decision to base the American note on the principles of international law to obtain an affirmative or negative reply, and not enter into a technical discussion of details raised in the German communication, which avoided the main issues, was the single development of the cabinet council.

Some of the cabinet members favored even excluding any reference to the facts asked for by Germany, settling first the point as to whether Germany intended to disregard the American warning of last February that it would insist upon the exercise of the right to visit and search with respect to vessels on which Americans were traveling.

No announcements were made after the meeting adjourned. Cabinet officers indicated, however, that the president would not dispatch the second note to Germany until every phase of the case, as well as the government's future policy, had been fully discussed.

Officials reiterated that the United States had absolute proof that the Lusitania was unarmed—that details of an investigation made by customs inspectors at New York before the Lusitania sailed, the assurances of the British government that no merchantman would be permitted to sail armed from the United States and a report by Collector Malone on all the articles in the Lusitania's cargo, including ammunition, were before the Washington government when the note of May 13 was written by the president.

## SERVIANS ARE AGAIN ACTIVE

Military Authorities Claim Successful  
Artillery Engagement.

Nish, Serbia, June 2.—The resump-  
tion of military activity on the part  
of Serbia against Austria is indicated  
in an official announcement. In this  
report the military authorities claim  
a successful artillery engagement as  
a result of which a battalion of Aus-  
trians which was fortifying itself to  
the northeast of Capinova was dis-  
persed.

Considerable military activity on  
the part of the Servians has been  
noted also on the Albanian frontier.

**EASY TO DARKEN**  
**YOUR GRAY HAIR**

Try this! Mix Sage Tea and Sulphur  
and brush it through your hair,  
taking one strand at a time.

When you darken your hair with Sage  
Tea and Sulphur, no one can tell, be-  
cause it's done so naturally, so evenly.  
Preparing this mixture, though, at home  
is messy and troublesome. For 50 cents  
you can buy at any drug store the ready-  
to-use tonic called "Wyeth's Sage and  
Sulphur Compound." You just dampen  
a sponge or soft brush with it and draw  
this through your hair, taking one small  
strand at a time. By morning all gray  
hair disappears, and after another ap-  
plication of two, your hair becomes beau-  
tifully darkened, glossy and luxuriant.  
You will also discover dandruff is gone  
and hair has stopped falling.

Gray, faded hair, though no disgrace,  
is a sign of old age, and as we all de-  
sire a youthful and attractive appear-  
ance, get busy at once with Wyeth's Sage  
and Sulphur and look years younger.

## CAPITAL WILL NOT INVEST.

Old Question of "When Is a Subsidy  
and What Is a Subsidy?" Is Again  
Raised—Ship Purchase Bill Is Wil-  
son's Solution—Hoke Smith Says We  
Must Intervene in Mexico.

By ARTHUR W. DUNN.

Washington, June 2.—[Special.]—  
That old question, "When is a subsidy  
and what is a subsidy?" comes to the  
fore in the latest proposition to have  
government owned steamships ply be-  
tween the United States and South  
American ports.

It is a conceded fact that the Ameri-  
can merchant marine cannot be built  
up in opposition to foreign steamship  
lines, which are subsidized and which  
operate under more liberal navigation  
laws. We cannot secure American sail-  
ing in competition with Japs, Chinese,  
Lascars or even with nations of north-  
ern Europe. Therefore American cap-  
ital will not invest in steamship lines.

The ship purchase bill, government  
owned and operated ships, is the solu-  
tion now proposed, and right there  
some one asks the question whether  
that is not a subsidy in another form.

## How It Works Out.

If it is unprofitable to operate Ameri-  
can ships by American capital and the  
United States goes into the business is  
it not a subsidy to the carriers or to  
somebody? Doesn't your Uncle Sam  
have to pay the difference between the  
cost of operating American ships and  
foreign ships when he complies with  
the navigation laws of this country, the  
wages and care of sailors, and in other  
respects makes up the difference that  
now exists on the seas?

Those are questions which will come  
up when the ship purchase bill is of-  
fered in the next congress.

## No Danger of War.

When the last shipping bill was un-  
der consideration there was quite a  
point made about the purchase of ships  
leading to war, also the great risk  
which was run in operating an Ameri-  
can owned ship in waters in case it  
should be destroyed by a mine or sub-  
marine or shot from another vessel of  
one of the belligerents.

"What nonsense!" commented Secre-  
tary McAdoo. "Is there any more rea-  
son why the destruction or attack upon  
a government owned vessel should  
bring on war than there is in case of a  
private owned vessel flying the Ameri-  
can flag? The flag is the badge of  
sovereignty and should be just as  
much respected on a fishing smack as  
upon a government owned merchant-  
man or a battleship."

## Must Intervene.

It has always been my opinion that  
there is no other way for a settlement  
of the Mexican troubles than by inter-  
vention by the United States. If the  
European war had not attracted so  
much attention the people would have  
demanded intervention long ago or at  
least a move in the direction of set-  
tling the Mexican problem.

"In some way it will be necessary  
for the United States to step in," re-  
marked Senator Hoke Smith of Geor-  
gia. "I hope it may be done in such  
a way as to make it unnecessary for  
us to remain in Mexico permanently,  
perhaps by finding some good man who  
can become head of the government.  
The first move should be an embargo  
on the exportation of arms to Mexico.  
None of the warring factions should  
have more arms and ammunition to  
continue the killing of helpless people  
in that distracted country."

## Not Worth While.

It is scarcely worth while to give  
any consideration to the talk of an  
extra session. The men who discussed

it recently, Senator Lewis of Illinois  
and Congressman Kitchin of North  
Carolina, had not even made the sug-  
gestion to the president when they  
gave their opinions. It is well to re-  
member that there can be no extra ses-  
sion unless Woodrow Wilson decides  
that it is necessary. The sole power  
of calling congress together rests with  
him. President Wilson does not want  
an extra session. Two years of con-  
gress is about all he could stand in one  
dose. There will be no extra session  
unless there is an overwhelming de-  
mand from the people. Woodrow Wil-  
son knows enough about steering  
"overwhelming demands from the peo-  
ple" to keep them away from an extra  
session.

Joe Tumulty, the Atlas.

It is not President Wilson, but Jo-  
seph P. Tumulty, who thinks he is the  
real Atlas of the present situation.  
Wilson bears the burdens that come  
from the European war, the Mexican  
situation, the political problems of next  
year, the legislative problems of the  
coming congress, the trials of a grand-  
father, etc, but it is Joe Tumulty who  
bears the suffrage burdens upon his  
broad shoulders. Joe must stand be-  
tween the suffragists and the presi-  
dent. He must keep them away from  
the president and refrain from violence  
and strong language. There are secret  
service men to guard the president, but  
their jobs did not and do not include  
suffragists. That is Joe's exclusive job.  
Atlas had an easy job supporting the  
world compared with that of Tumulty.

The readers of this paper will be  
pleased to learn that there is at least  
one dreaded disease that science has  
been able to cure in all its stages, and  
that is catarrh. Hall's Catarrh Cure is  
the only positive cure now known to the  
medical fraternity. Catarrh being a con-  
stitutional disease, requires a constitu-  
tional treatment. Hall Catarrh Cure is  
taken internally, acting directly upon the  
blood and mucous surfaces of the sys-  
tem, thereby destroying the foundation  
of the disease, and giving the patient  
strength by building up the constitution  
and assisting nature in doing its work.

**Big Meeting June 3rd.**

Geo. N. Day, of Hilo, Hawaiian  
Islands, is in the city visiting friends  
and renewing old acquaintances. For  
eleven years, from 1883 to 1894, Mr.  
Day was one of the prominent busi-  
ness men of the city, conducting a  
large clothing store in partnership  
with Jas. Maegher, under the firm  
name of Day & Maegher, and today is  
receiving the hearty greeting of  
scores of old friends and acquaint-  
ances. He is greatly impressed with  
the substantial progress made by  
Brainerd, and thinks Brainerd has  
developed into a beautiful little city.  
He is a great admirer of the climate  
of his island home, where the tem-  
perature never is lower than 60 or  
more than 85 and perpetual summer  
exists.

## Your Child's Cough is a Call for Help

You can't prevent an attack of  
Rheumatism from coming on, but you  
can stop it almost immediately.  
Sloan's Liniment gently applied to  
the sore joint or muscle penetrates in  
a few minutes to the inflamed spot  
that causes the pain. It soothes the  
hot, tender, swollen feeling, and in  
a very short time brings a relief that  
is almost unbelievable until you ex-  
perience it. Get a bottle of Sloan's  
Liniment for 25c. of any druggist and  
have it in the house—against colds,  
sore and swollen joints, lumbago,  
sciatica and like ailments. Your  
money back if not satisfied, but it  
does give almost instant relief.—tis.

## SERVIANS ARE AGAIN ACTIVE

Military Authorities Claim Successful  
Artillery Engagement.

Nish, Serbia, June 2.—The resump-  
tion of military activity on the part  
of Serbia against Austria is indicated  
in an official announcement. In this  
report the military authorities claim  
a successful artillery engagement as  
a result of which a battalion of Aus-  
trians which was fortifying itself to  
the northeast of Capinova was dis-  
persed.

Considerable military activity on  
the part of the Servians has been  
noted also on the Albanian frontier.

## EASY TO DARKEN YOUR GRAY HAIR

Try this! Mix Sage Tea and Sulphur  
and brush it through your hair,  
taking one strand at a time.

When you darken your hair with Sage  
Tea and Sulphur, no one can tell, be-  
cause it's done so naturally, so evenly.  
Preparing this mixture, though, at home  
is messy and troublesome. For 50 cents  
you can buy at any drug store the ready-  
to-use tonic called "Wyeth's Sage and  
Sulphur Compound." You just dampen  
a sponge or soft brush with it and draw  
this through your hair, taking one small  
strand at a time. By morning all gray  
hair disappears, and, after another ap-  
plication or two, your hair becomes beau-  
tifully darkened, glossy and lustrous.  
You will also discover dandruff is gone  
and hair has stopped falling.

Gray, faded hair, though no disgrace,  
is a sign of old age, and as we all de-  
sire a youthful and attractive appear-  
ance, get busy at once with Wyeth's Sage  
and Sulphur and look years younger.

## U. S. OWNED SHIPS PRESENT PUZZLE

This Country Can't Employ  
Crews as Cheaply as Others.

## CAPITAL WILL NOT INVEST.

Old Question of "When Is a Subsidy  
and What Is a Subsidy" Is Again  
Raised—Ship Purchase Bill Is Wil-  
son's Solution—Hoke Smith Says We  
Must Intervene in Mexico.

By ARTHUR W. DUNN.

Washington, June 2.—[Special.]—  
That old question, "When is a subsidy  
and what is a subsidy?" comes to the  
fore in the latest proposition to have  
government owned steamships ply be-  
tween the United States and South  
American ports.

It is a conceded fact that the Ameri-  
can merchant marine cannot be built  
up in opposition to foreign steamship  
lines, which are subsidized and which  
operate under more liberal navigation  
laws. We cannot secure American sail-  
ors in competition with Japs, Chinese,  
Lascars or even with nations of north-  
ern Europe. Therefore American cap-  
ital will not invest in steamship lines.  
The ship purchase bill, government  
owned and operated ships, is the solu-  
tion now proposed, and right there  
some one asks the question whether  
that is not a subsidy in another form.

## How It Works Out.

If it is unprofitable to operate Ameri-  
can ships by American capital and the  
United States goes into the business is  
it not a subsidy to the carriers or to  
somebody? Doesn't your Uncle Sam  
have to pay the difference between the  
cost of operating American ships and  
foreign ships when he complies with  
the navigation laws of this country, the  
wages and care of sailors, and in other  
respects makes up the difference that  
now exists on the seas?

Those are questions which will come  
up when the ship purchase bill is of-  
fered in the next congress.

## No Danger of War.

When the last shipping bill was un-  
der consideration there was quite a  
point made about the purchase of ships  
leading to war, also the great risk  
which was run in operating an Ameri-  
can owned ship in waters in case it  
should be destroyed by a mine or sub-  
marine or shot from another vessel of  
one of the belligerents.  
"What nonsense!" commented Sec-  
retary McAdoo. "Is there any more  
reason why the destruction or attack upon  
a government owned vessel should  
bring on war than there is in case of a  
private owned vessel flying the Ameri-  
can flag? The flag is the badge of  
sovereignty and should be just as  
much respected on a fishing smack as  
upon a government owned merchant-  
man or a battleship."

## Must Intervene.

It has always been my opinion that  
there is no other way for a settlement  
of the Mexican troubles than by inter-  
vention by the United States. If the  
European war had not attracted so  
much attention the people would have  
demanded intervention long ago or at  
least a move in the direction of set-  
tling the Mexican problem.

"In some way it will be necessary  
for the United States to step in," re-  
marked Senator Hoke Smith of Geor-  
gia. "I hope it may be done in such  
a way as to make it unnecessary for  
us to remain in Mexico permanently,  
perhaps by finding some good man who  
can become head of the government.  
The first move should be an embargo  
on the exportation of arms to Mexico.  
None of the warring factions should  
have more arms and ammunition to  
continue the killing of helpless people  
in that distracted country."

## Not Worth While.

It is scarcely worth while to give  
any consideration to the talk of an  
extra session. The men who discussed

it recently, Senator Lewis of Illinois  
and Congressman Kitchin of North  
Carolina, had not even made the sug-  
gestion to the president when they  
gave their opinions. It is well to re-  
member that there can be no extra ses-  
sion unless Woodrow Wilson decides  
that it is necessary. The sole power  
of calling congress together rests with  
him. President Wilson does not want  
an extra session. Two years of con-  
gress is about all he could stand in one  
dose. There will be no extra session  
unless there is an overwhelming de-  
mand from the people. Woodrow Wil-  
son knows enough about steering  
"overwhelming demands from the peo-  
ple" to keep them away from an extra  
session.

Joe Tumulty, the Atlas.  
It is not President Wilson, but Jo-  
seph P. Tumulty, who thinks he is the  
real Atlas of the present situation.  
Wilson bears the burdens that come  
from the European war, the Mexican  
situation, the political problems of next  
year, the legislative problems of the  
coming congress, the trials of a grand-  
father, etc., but it is Joe Tumulty who  
bears the suffrage burdens upon his  
broad shoulders. Joe must stand be-  
tween the suffragists and the presi-  
dent. He must keep them away from  
the president and refrain from violence  
and strong language. There are secret  
service men to guard the president, but  
their jobs did not and do not include  
suffragists. That is Joe's exclusive job.  
Atlas had an easy job supporting the  
world compared with that of Tumulty.

conference was effected at a meeting  
of representatives of eight states at  
the American hotel under the direc-  
tion of the executive committee of  
the temporary organization.

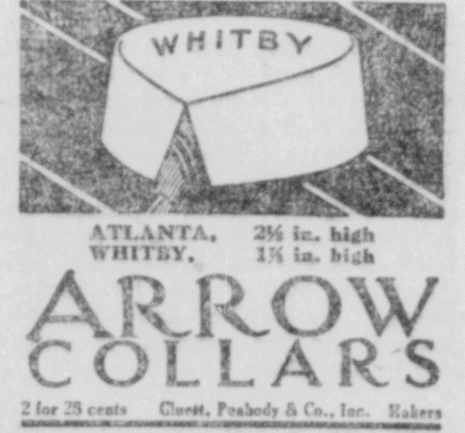

The organization will work for the  
establishment of uniform river ter-

the advantage of the Panama canal.

## Renew Anti-German Riots.

London, June 2.—The Zeppelin raid  
on the metropolitan area has brought  
a recrudescence of the anti-German  
demonstrations of the mob. The feel-  
ing against Germans is acute. Crowds  
have attacked German shops and spe-  
cial constables have had to be called  
out to deal with the people.

## \$100 REWARD WIDEN

The readers of this paper will be  
pleased to learn that there is at least  
one dreaded disease that science has  
been able to cure in all its stages, and  
that is catarrh. Hall's Catarrh Cure is  
the only positive cure now known to the  
medical fraternity. Catarrh being a con-  
stitutional disease, requires a constitu-  
tional treatment. Hall's Catarrh Cure is  
taken internally, acting directly upon the  
blood and mucous surfaces of the sys-  
tem, thereby destroying the foundation  
of the disease, and giving the patient  
strength by building up the constitution  
and assisting nature in doing its work.

42. Eugene Keith White.
43. Dorothy Pauline Wright.
44. Esther Zakariasen.

The present Senior class, that will be graduated next Monday evening with exercises at the Park opera house will be the second largest class in point of numbers, to graduate from the local high school.

The class has been a rather unusual one in many interesting particulars.

The class president, Richard Ahrens, is one of the business hustler kind, and the result has been that the business affairs of the class have been managed better than is apt to be the case with class organizations.

Several students have shown unusual ability in various lines of work. The work of the high school is diversified enough to give students an opportunity to a considerable extent of exercising their individualities in various lines. Some of the students have shown unusual aptitude in chemistry, while others have done excellent work in the commercial branches. Several of the students have already obtained positions in offices in the city and others are available for anyone who needs a stenographer or person who can operate a typewriter. These students have had good practice in the work demanded because part of their preparation has been going out to do the practical work for various business firms in the city.

One of the boys has made drawings in the mechanical drawing department which has merited very favorable mention by some of the building contractors of the city. Nine of the class will graduate from the normal training department, prepared to take up teaching.

The scholarship of the class as a whole has been above the general average and throughout the year has ranked above that of the other three classes in the high school. Leslie Robertson is valedictorian of the class. He has won other honors beside that of the highest scholarship average in his own high school. Last summer he competed in the state wide contest conducted by Judge Brown in connection with the "Recall of Judges." He took second prize of \$25 in this competition. He has also shown himself to be a debater of unusual promise and ability.

Several of the girls are well trained musicians. Quite a large per-

centage of the class are planning to go to various colleges and universities where they will, without doubt, add to the prestige of their high school and to their home city of Brainerd.

Hamlin University has conferred a scholarship upon the boy having the highest average in the class and also to the girl having the highest average. These go respectively to Leslie Robertson and to Elizabeth Benson.

The class has been an exceptional one in this matter of school spirit. They have been ready at all times to boost for themselves but first and foremost they have worked for the good of the school. Their cooperation with the members of the faculty has been admirable in this respect and sets a high standard for other classes. There has been almost complete unity in the class itself and this has resulted in a number of very pleasant and enjoyable social occasions which culminated on Saturday, May 29, when they provided automobiles for themselves and faculty and repaired to White's cottage on Gull lake, where the day was spent most enjoyably. It was the consensus of opinion of the members of the faculty that they had never attended a school picnic so enjoyable.

In athletics the loss of this year's senior class will be felt, for it numbers among its members such boys as George Day, Robert Trent, Eugene White, Melvin Carlson, Harry Eekholm, Bert Norquist, Axel Fall, Werner Hemstead, Andrew Vaughn. These boys have all shown themselves athletes of high ability.

On the whole, the class of 1915 has proved during its senior year one of the most satisfactory classes in the opinion of their teachers that has been graduated.

## SCHOOL CHILDREN IN GARDEN CONTEST

Vegetable and Flower Gardens to be  
Inspected by Judges During the  
Summer Months

## THREE PRIZES TO BE AWARDED

The List of Vegetables Which May be  
Entered for Prizes at the Con-  
test Exhibit in September

School children of the city will compete for prizes in a garden contest and a list of vegetables which may be entered for prizes at the contest exhibit in September includes lettuce, leaf and head; summer radishes (a) round and (b) long; pumpkins; squash, (a) summer and (b) winter; cucumbers, cantaloup, sweet corn, potatoes (a) round and (b) long; turnips, carrots, table beets.

The contest is to be between the members of the same classes that is grades, of all the schools; between all the exhibitors regardless of their classes; and between the different

schools themselves on points scored by their respective student winners.

Gardens, both vegetable and flower, are to be inspected by judges during the summer.

The flower gardens are to be judged as to arrangements and number of varieties, state of cultivation, freedom from weeds, care as to props, borders, etc.

There will probably be first, second and third prizes, also prizes for the school building getting the most points.

# 95% of All Crime is Caused by Liquor

When District Judge W. S. McClenahan stated that he estimated that 90 per cent of all crime coming under his jurisdiction was attributed to liquor many were startled. This organization has just completed a canvas of all criminal cases in Crow Wing county for the ten years ending January 1st, 1915 and finds that the judge was a bit conservative as the actual testimony in all cases during the last ten years shows that 95 per cent of all crime in Crow Wing county was due to liquor.

Now Mr. Intelligent Voter: Can anything recompense a county for crime? Can we afford to allow the saloons to run and continue crime? Can we be good citizens if we fail to vote June 28 for County Option? Think of it—the elimination of the liquor traffic will almost make a new jail unnecessary. Think this over seriously—then vote for the first step for national prohibition—County Option.

The present Senior class, that will be graduated next Monday evening with exercises at the Park opera house will be the second largest class in point of numbers, to graduate from the local high school.

The class has been a rather unusual one in many interesting particulars.

The class president, Richard Ahrens, is one of the business hustler kind, and the result has been that the business affairs of the class have been managed better than is apt to be the case with class organizations.

Several students have shown unusual ability in various lines of work. The work of the high school is diversified enough to give students an opportunity to a considerable extent of exercising their individualities in various lines. Some of the students have shown unusual aptitude in chemistry, while others have done excellent work in the commercial branches. Several of the students have already obtained positions in offices in the city and others are available for anyone who needs a stenographer or person who can operate a typewriter. These students have had good practice in the work demanded because part of their preparation has been going out to do the practical work for various business firms in the city.

One of the boys has made drawings in the mechanical drawing department which has merited very favorable mention by some of the building contractors of the city. Nine of the class will graduate from the normal training department, prepared to take up teaching.

The scholarship of the class as a whole has been above the general average and throughout the year has ranked above that of the other three classes in the high school. Leslie Robertson is valedictorian of the class. He has won other honors beside that of the highest scholarship average in his own high school. Last summer he competed in the state wide contest conducted by Judge Brown in connection with the "Recall of Judges." He took second prize of \$25 in this competition. He has also shown himself to be a debater of unusual promise and ability.

Several of the girls are well trained musicians. Quite a large per-

centage of the class are planning to go to various colleges and universities where they will, without doubt, add to the prestige of their high school and to their home city of Brainerd.

Hamlin University has conferred a scholarship upon the boy having the highest average in the class and also to the girl having the highest average. These go respectively to Leslie Robertson and to Elizabeth Benson.

The class has been an exceptional one in the matter of school spirit. They have been ready at all times to boost for themselves but first and foremost they have worked for the good of the school. Their cooperation with the members of the faculty has been admirable in this respect and sets a high standard for other classes. There has been almost complete unity in the class itself and this has resulted in a number of very pleasant and enjoyable social occasions which culminated on Saturday, May 29, when they provided automobiles for themselves and faculty and repaired to White's cottage on Gull lake, where the day was spent most enjoyably. It was the consensus of opinion of the members of the faculty that they had never attended a school picnic so enjoyable.

In athletics the loss of this year's senior class will be felt, for it numbers among its members such boys as George Day, Robert Trent, Eugene White, Melvin Carlson, Harry Eckholm, Bert Norquist, Axel Fall, Werner Hemstead, Andrew Vaughn. These boys have all shown themselves athletes of high ability.

On the whole, the class of 1915 has proved during its senior year one of the most satisfactory classes in the opinion of their teachers that has been graduated.

## SCHOOL CHILDREN IN GARDEN CONTEST

Vegetable and Flower Gardens to be Inspected by Judges During the Summer Months

## THREE PRIZES TO BE AWARDED

The List of Vegetables Which May be Entered for Prizes at the Contest Exhibit in September

School children of the city will compete for prizes in a garden contest and a list of vegetables which may be entered for prizes at the contest exhibit in September includes lettuce, leaf and head; summer radishes (a) round and (b) long; pumpkins; squash, (a) summer and (b) winter; cucumbers, cantaloup, sweet corn, potatoes (a) round and (b) long; turnips, carrots, table beets.

The contest is to be between the members of the same classes that is grades, of all the schools; between all the exhibitors regardless of their classes; and between the different

schools themselves on points scored by their respective student winners.

Gardens, both vegetable and flower, are to be inspected by judges during the summer.

The flower gardens are to be judged as to arrangements and number of varieties, state of cultivation, freedom from weeds, care as to props, borders, etc.

There will probably be first, second and third prizes, also prizes for the school building getting the most points.

August R. Hatton, Ph. D., professor of Political Science at Western Reserve University, Cleveland, Ohio, and member of the recent Charter Commission of Cleveland, in addressing the Chamber of Commerce at Ashtabula, Ohio, said in part:

"I congratulate the Charter Commission of Ashtabula that in drawing the charter they provide for the business-manager plan, for that plan is coming to be the most popular by far of all the new forms of municipal government. It has developed with rapid strides; in short, it seems to be the necessary step if we are to obtain the highest degree of efficiency from our city government."—Ashtabula Star.

## FINAL PLEA FOR HIS LIFE

Prison Body Hears Evidence in Case of Leo M. Frank.

Atlanta, Ga., June 1.—Hearing of Leo M. Frank's application for commutation of his death sentence to life imprisonment was completed here before the state prison commission. The commission's recommendation probably will be transmitted within the next ten days to the governor, who will take final action on the appeal. No opposition to the application was presented.

Principal features of the proceedings consisted of a letter written a few months before his death by Judge L. S. Roan, who presided at Frank's trial, in which he sought clemency for the prisoner, and a statement by Mrs. Frank, describing her husband's actions on the night after Mary Phagan's murder, and denying rumors of an estrangement between Frank and herself.

## TWO DIE IN BUTTE MINES

Cavein and Derailing of Cars Are Fatal.

Butte, Mont., June 2.—Patrick Mulien was killed in Mountain Con mine by a cavein and Luther Ohore met his death at the Tonard mine, when cars leaping off the track crushed him.

## LATEST WAR NEWS

## PURSUED BY GERMANS

(By United Press)

New York, June 2.—The New York Tribune carries a story from a special correspondent at Liverpool, who was aboard the American liner St. Paul, claiming that the captain of that vessel admitted being pursued by a German submarine to Mersey bar.

Note—Officials of the American line claim that they have received no confirmation, and refused comment until officially notified from London.

## GERMANS LACK AMMUNITION

(By United Press)

Paris, June 2.—The French war office has issued an official bulletin in which it is asserted that the Germans are battling in a hail of lead in the vicinity of Notre Dame Delorette, and so great is the storm of bullets that they are confused, being unable to tell north from south. The Germans lack ammunition, are badly ordered and the morale is bad. The officers are calling for reinforcements but as yet their appeal has been unanswered.

## BRITISH STEAMER TORPEDOED

(By United Press)

London, June 2.—The war department of England in an official statement says that the British steamer Saideth has been torpedoed and sunk in the North Sea, the stewardess and seven of the crew being drowned, the life boats capsizing. Eight passengers and six of the crew of the ill fated boat were landed at Fatham by a steam trawler.

## MURDERED BY HOSTILE FORCE

(By United Press)

London, June 2.—The coroners inquest on the death of the two victims of the first Zeppelin raid upon London returned a verdict of "Murdered by some hostile force." They found that Henry Good and wife died from suffocation and injuries when an incendiary bomb hurled from a Zeppelin fired their house.

## BOMBARDMENT OF MORI

(By United Press)

Rome, June 2.—The bombardment of Mori, an Austrian city three miles from Beverto, has begun, the Italian batteries being posted on the heights of Monto Altissimo. The railroad bridge across the Adige has been wrecked and great damage done to the railway station.

## ROUMANIA FOR WAR

(By United Press)

London, June 2.—Roumania is actively preparing for entering war on the side of the allies. The situation is critical, the war party bringing pressure to bear upon the government which is augmented by the success of the Italian arms, causing the wildest enthusiasm at Bucharest.

## ITALIANS DESTROY WIRELESS

(By United Press)

Rome, June 2.—The Italian fleet have destroyed the Austrian wireless station on the island of Lissa, off Dalmatian coast and the semaphore Curzola island.

## GERMANS TORPEDO STEAMER

(By United Press)

London, June 2.—A German submarine torpedoed the Danish steamer Soeborg, a vessel of 2,000 tons.

## BOMBARDING CATHEDRAL

(By United Press)

Paris, June 2.—An official statement from the war department of France says that the Germans are again bombarding Rheims cathedral.

## FUNDAMENTAL LESSON OF WAR

J. W. T. Mason writes interestingly of the campaign and the preliminary defenses as experienced by Italy after the first forward rushes. Italy has developed a sense of caution, and has begun to use military discretion.

Italy's preliminary offensives have come to a halt. The first forward rushes that followed so quickly after the declaration of war against Austria are not being followed up. The Austrian armies are invisible and no reports of their activities have been issued at Vienna. Nevertheless, the Italians suddenly have developed a sense of caution and are beginning to use military discretion in conducting their campaign.

The slow mobilization of the army must be chiefly responsible for the cessation of the Italian advances. A fortnight would normally be the least time required to concentrate the Italian troops. By this rule, no serious advance could have been expected anywhere along the front before the first of next week. But so quickly did the Italians begin their invasion of Austrian territory after war was declared and at so many points were frontier troops sent across the boundary that high expectations were raised of the sudden development of military genius in Italy.

Italy has shown that her military experts had grasped the fundamental lesson of the war, which is the advantage of striking first. Italy struck first, last week, but her blows are now seen to be nothing like as heavy as were the German thrusts in August. It is as yet too early to criticize the Italians fully, but a feeling is beginning to be created that too many offensives have been undertaken at once. Beside the known movements of troops toward Trieste and through the Alpine passes, it is understood that expeditions are being sent to the Dardanelles, and there have been suggestions that large bodies of troops are being ferried across the Adriatic to Albania and Dalmatia.

The danger, therefore, seems to be real that Italy has read too well the lessons of a quick offensive. The Italian general staff may be overexerting itself and trying to accomplish too much.

## SUGAR MILL RECAPTURED

(By United Press)

Berlin, June 2.—The war department has issued an official bulletin stating that the Germans have recaptured the sugar mill at Souchez, which was the scene of desperate fighting.

## DRIVEN FROM THE CITY

(By United Press)

Petrograd, June 2.—The Turkish troops have been driven from the Armenian city, the van flying in great disorder before the Russians in the vicinity of Lake van.

## PROPOSED AMENDMENTS

To the Charter of the City of Brainerd

TO THE CITY COUNCIL OF THE CITY OF BRAINERD:

The Brainerd Charter commission propose the amendments to the Charter of the City of Brainerd which are hereto attached.

Dated this 25th day of May, 1915.

HENRY I. COHEN,

Secretary.

## PROPOSED AMENDMENTS TO THE CHARTER OF THE CITY OF BRAINERD

That Section 51 of Chapter Three of the Charter of the City of Brainerd be amended to read as follows:

After the making of the reports provided for in the last section the city council shall levy such tax on all property real and personal within said city, except such as may be exempt by the laws of this state as it shall deem necessary, in addition to the other revenues of the city as reported as aforesaid, to defray the current general expenses of the city for the then fiscal year; but no such taxes for such current expenses nor for any of the purposes mentioned in section fifty-four of this charter, nor for park purposes or public library purposes or for a revolving fund, shall in the aggregate exceed twelve and one half mills on the dollar of the assessed valuation of the property in the city.

That Section 119 of Chapter Eight be amended to read as follows:

The city council shall have power to levy, assess and collect against all the assessable property of the city such taxes as are necessary to provide municipal funds for the city and the various departments thereof as is provided by this charter or by the general laws of the State of Minnesota, but the aggregate levy and assessment shall not in any one year exceed twelve and one-half mills on the dollar, and any levy and assessment in excess thereof, shall be void as to such excess; and in case the aggregate assessment is excessive as above provided the city council shall have power to reconsider and annul enough of such levy and assessment as is necessary to reduce the same to the limit above specified, but such reduction shall be so made if possible as not to affect the levy and assessment for general current funds or for the payment of interest on the bonded indebtedness.

## HOKE SMITH A BIG NAVY MAN

## Surpasses Gardner in Outlining Plans For Defense.

## WANTS ARMY OF 2,000,000

Would Forever Make It Impossible For Any Foreign Nation to Attack This Country—Asserts That Sooner or Later We Must Have a Great Fleet on the Pacific.

By ARTHUR W. DUNN.

Washington, June 1.—[Special].—Hoke Smith is more than a supporter of Augustus P. Gardner. He has surpassed him. The Massachusetts man wanted a good navy and a good army in order to meet emergencies. The Georgia man wants a superior army and navy, one which will forever make it impossible for any foreign nation to attack this country.

"We ought to have 2,000,000 men drilling and being trained for soldiering," said Senator Smith, thus quadrupling the number he suggested a few weeks ago. "We need not keep them under arms, but we could train them to be soldiers," he added, thus bearing out what a number of military men have advocated in regard to having a reserve force of trained men.

## Navy in the Pacific.

"The fleet is not going into the Pacific ocean—not now," remarked Senator Smith when it was suggested to him that under present conditions it might be unwise to have the fleet in those waters. "But the time is coming when our strongest naval force should be in the Pacific," declared the Georgia senator. "Our commerce must expand, must find an outlet, and the orient offers the market which we must share, and we must have a sufficient naval force to enforce our demands for equal treatment in the great market which will be opened to us."

## Is a Peace Man.

"I am a peace man," continued this southern senator, who seems to be as emphatic if not quite so voluble as Gardner. "I believe in peace and believe that the best way to secure it is to have the country so well prepared that no other nation will want to attack us and we can demand and enforce our just rights against any other nation. Who knows what will follow the conclusion of the present war in Europe? It is a fight for territory, for room to expand. What will be the demands of the successful nations when it is concluded? And what answer can the United States make to such demands unless we are in a position to enforce them?"

It must be recalled that Senator Smith is the most insistent man in public life of freedom of traffic on the seas, especially in regard to such goods as cotton and food supplies for neutral ports and for Germany if reached through neutral or German ports.

## Weeks Has the Bee.

"John Weeks has the presidential bee. He is a sure enough candidate," remarked one of the Massachusetts senator's friends who saw him after he had returned from a trip to the Pacific coast.

"How do you know? Did he say so?" asked an anxious listener. "No; he refused absolutely to say anything about it," was the reply. "Before he went away he would talk about the possibilities. Now he won't say a word. That is enough for me. He not only has the presidential bee, but he's been stung."

## Jim Hill's Prediction.

Only a short time ago a report was printed that a steamer going through the Panama canal would carry flour and other freights from Minneapolis and St. Paul to the Pacific coast. That reminded me that a number of years ago I heard Jim Hill, the great northwestern railroad man, before a committee of congress. The discussion was over an amendment to the interstate commerce law, but a reference was made to the Panama canal and its probable effect on freights across the continent.

"See here," said Hill, going over to a map of the United States hanging on the wall. "Let us take heavy freights such as manufactured at Pittsburgh. They will have to be shipped by rail to the Atlantic seaboard. We will load them on cars and ship them to a point on the great lakes; load them on boats and ship them by water to Duluth, from there by rail to Puget sound. Meanwhile where are your Panama shipments? Somewhere off in the Pacific. In the matter of time we can overcome the lower freight rate by the canal."

But yet there are shipments of Hill's pet products from his pet cities showing that even the greatest minds may err.

## Not Pleading to Lee.

Mayor Preston of Baltimore will be the next senator from Maryland," unequivocally declares a man from that state, citing the majority by which Preston was recently elected. And he does not take into consideration the fact that Blair Lee is senator from Maryland, with a term expiring next year, and ready to be re-elected. Besides Lee has the endorsement of the administration; is a pet of Bryan's and belongs to the F. F. M.'s, or whatever they call the families who date back to the Lord Baltimore.

Telephone Competition  
Talk No. 1

Brainerd is being told that two telephones are a nuisance. This is an error. If another employee meant more business you would hire that extra man. An extra man generally means another desk. Having another desk around may be inconvenient. The new business offsets it. So another telephone may take a little more room on your desk—but the business it will bring more than repays.

Another company means competition. Competition means more telephones. Statistics show that cities having competition have from twenty-five to a hundred per cent more telephones than cities of like size served by monopoly.

More telephones means more business. More business means greater population. Greater population advances prosperity.

August R. Hatton, Ph. D., professor of Political Science at Western Reserve University, Cleveland, Ohio, and member of the recent Charter Commission of Cleveland, in addressing the Chamber of Commerce at Ashtabula, Ohio, said in part:

"I congratulate the Charter Commission of Ashtabula that in drawing the charter they provide for the business-manager plan, for that plan is coming to be the most popular by far of all the new forms of municipal government. It has developed with rapid strides; in short, it seems to be the necessary step if we are to obtain the highest degree of efficiency from our city government."—Ashtabula Star.

## FINAL PLEA FOR HIS LIFE

Prison Body Hears Evidence in Case of Leo M. Frank.

Atlanta, Ga., June 1.—Hearing of Leo M. Frank's application for commutation of his death sentence to life imprisonment was completed here before the state prison commission. The commission's recommendation probably will be transmitted within the next ten days to the governor, who will take final action on the appeal. No opposition to the application was presented.

Principal features of the proceedings consisted of a letter written a few months before his death by Judge L. S. Roan, who presided at Frank's trial, in which he sought clemency for the prisoner, and a statement by Mrs. Frank, describing her husband's actions on the night after Mary Phagan's murder, and denying rumors of an estrangement between Frank and herself.

## TWO DIE IN BUTTE MINES

Cavein and Derailing of Cars Are Fatal.

Butte, Mont., June 2.—Patrick Mullen was killed in Mountain Con mine by a cavein and Luther Obore met his death at the Tonard mine, when cars leaping off the track crushed him.

## LATEST WAR NEWS

## PURSUED BY GERMANS

(By United Press)

New York, June 2.—The New York Tribune carries a story from a special correspondent at Liverpool, who was aboard the American liner St. Paul, claiming that the captain of that vessel admitted being pursued by a German submarine to Mersey bar.

Note—Officials of the American line claim that they have received no confirmation, and refused comment until officially notified from London.

## GERMANS LACK AMMUNITION

(By United Press)

Paris, June 2.—The French war office has issued an official bulletin in which it is asserted that the Germans are battling in a hail of lead in the vicinity of Notre Dame Delorette, and so great is the storm of bullets that they are confused, being unable to tell north from south. The Germans lack ammunition, are badly ordered and the morale is bad. The officers are calling for reinforcements but as yet their appeal has been unanswered.

## BRITISH STEAMER TORPEDOED

(By United Press)

London, June 2.—The war department of England in an official statement says that the British steamer Saideth has been torpedoed and sunk in the North Sea, the stewardess and seven of the crew being drowned, the life boats capsizing. Eight passengers and six of the crew of the ill fated boat were landed at Fatham by a steam trawler.

## MURDERED BY HOSTILE FORCE

(By United Press)

London, June 2.—The coroners inquest on the death of the two victims of the first Zeppelin raid upon London returned a verdict of "Murdered by some hostile force." They found that Henry Good and wife died from suffocation and injuries when an incendiary bomb hurled from a Zeppelin fired their house.

## BOMBARDMENT OF MORI

(By United Press)

Rome, June 2.—The bombardment of Mori, an Austrian city three miles from Beverso, has begun, the Italian batteries being posted on the heights of Monto Altissimo. The railroad bridge across the Adige has been wrecked and great damage done to the railway station.

## ROUMANIA FOR WAR

(By United Press)

London, June 2.—Roumania is actively preparing for entering war on the side of the allies. The situation is critical, the war party bringing pressure to bear upon the government which is augmented by the success of the Italian arms, causing the wildest enthusiasm at Bucharest.

## FUNDAMENTAL LESSON OF WAR

J. W. T. Mason writes interestingly of the campaign and the preliminary defenses as experienced by Italy after the first forward rushes. Italy has developed a sense of caution, and has begun to use military discretion.

Italy's preliminary offensives have come to a halt. The first forward rushes that followed so quickly after the declaration of war against Austria are not being followed up. The Austrian armies are invisible and no reports of their activities have been issued at Vienna. Nevertheless, the Italians suddenly have developed a sense of caution and are beginning to use military discretion in conducting their campaign.

The slow mobilization of the army must be chiefly responsible for the cessation of the Italian advances. A fortnight would normally be the least time required to concentrate the Italian troops. By this rule, no serious advance could have been expected anywhere along the front before the first of next week. But so quickly did the Italians begin their invasion of Austrian territory after war was declared and at so many points were frontier troops sent across the boundary that high expectations were raised of the sudden development of military genius in Italy.

Italy has shown that her military experts had grasped the fundamental lesson of the war, which is the advantage of striking first. Italy struck first, last week, but her blows are now seen to be nothing like as heavy as were the German thrusts in August. It is as yet too early to criticize the Italians fully, but a feeling is beginning to be created that too many offensives have been undertaken at once. Beside the known movements of troops toward Trieste and through the Alpine passes, it is understood that expeditions are being sent to the Dardanelles, and there have been suggestions that large bodies of troops are being ferried across the Adriatic to Albania and Dalmatia.

The danger, therefore, seems to be real that Italy has read too well the lessons of a quick offensive. The Italian general staff may be overexerting itself and trying to accomplish too much.

## PROPOSED AMENDMENTS

To the Charter of the City of Brainerd

TO THE CITY COUNCIL OF THE CITY OF BRAINERD:  
The Brainerd Charter commission propose the amendments to the Charter of the City of Brainerd which are hereto attached.

Dated this 25th day of May, 1915.

Secretary.

## PROPOSED AMENDMENTS TO THE CHARTER OF THE CITY OF BRAINERD

That Section 51 of Chapter Three of the Charter of the City of Brainerd be amended to read as follows:

After the making of the reports provided for in the last section the city council shall levy such tax on all property real and personal within said city, except such as may be exempt by the laws of this state as it shall deem necessary, in addition to the other revenues of the city as reported as aforesaid, to defray the current general expenses of the city for the then fiscal year; but no such taxes for such current expenses nor for any of the purposes mentioned in section fifty-four of this charter, nor for park purposes or public library purposes or for a revolving fund, shall in the aggregate exceed twelve and one half mills on the dollar of the assessed valuation of the property in the city.

That Section 119 of Chapter Eight be amended to read as follows:

The city council shall have power to levy, assess and collect against all the assessable property of the city such taxes as are necessary to provide municipal funds for the city and the various departments thereof as is provided by this charter or by the general laws of the State of Minnesota, but the aggregate levy and assessment shall not in any one year exceed twelve and one-half mills on the dollar, and any levy and assessment in excess thereof, shall be void as to such excess; and in case the aggregate assessment is excessive as above provided the city council shall have power to reconsider and annul enough of such levy and assessment as is necessary to reduce the same to the limit above specified, but such reduction shall be so made if possible as not to affect the levy and assessment for general current funds or for the payment of interest on the bonded indebtedness.

## OCCUPY COMMANDING PEAK

Italian Invasion of Austria Is Making Progress.

Rome, May 29.—The official reports from the front show that Lieutenant General Cadorna, Italian chief of staff, is attempting to carry out a well defined movement for the occupation of the important points in the Alps along the Giudicarie chain of the Lessini mountains, the Sugana valley and the Carnic Alps.

The occupation of Altissimo mountain, which is 6,799 feet high, is regarded as the most important achievement in carrying out this plan.

This is the highest peak of the Baldo range, which extends for twenty-five miles on the eastern side of Lake Garda.

Occupation of Altissimo mountain means the domination of three important Austrian centers of communication with the province of Trent.

## LOST HIS LIFE AND SAVINGS

Hotel Keeper Burns to Death in Attempt to Recover Money.

Chicago, June 1.—Peter Dushane, clerk of the Fox Lake hotel at Fox Lake, Ill., whose lifetime savings were in a trunk in the attic of the hotel, lost his life in trying to recover the money when the hotel caught fire and burned down.

## Snow and Water.

According to the speed of its fall and the temperature the density of snow varies. In cold, crisp, frosty weather it comes down light and dry, and the bulk is greater than in the moist, cold weather, when the snow falls in large, partially thawed flakes, which pack closely and occupy much less space for a given amount of moisture than when there is a greater degree of cold.

Newly fallen snow of average compactness, having a depth of eleven and one-third inches, is reckoned as equivalent to one inch of rain. A cubic foot of newly fallen snow weighs five and one-half pounds, and a cubic foot of rain water weighs sixty-two and one-half pounds.

## THE TEST OF MERIT

Brainerd People are Given Convincing Proof

No better test of any article can be made than the test of time and this is particularly true of a kidney medicine. Doan's Kidney Pills have stood this test and stood it well. What better proof of the merits of this remedy could you demand, than the statement of a Brainerd resident who used it successfully and tells of lasting results.

Read the following:

Paul Hansen, carpenter, Tenth and Quince Sts., Brainerd, says: "I had a sort of rheumatic swelling in my knee and I had other kidney and bladder troubles. Doan's Kidney Pills gave me prompt relief." (Statement given October 13, 1910.)

OVER THREE YEARS LATER Mr. Hansen said: "I am as good a friend of Doan's Kidney Pills as ever. The relief they gave me has been permanent."

## HOKE SMITH A BIG NAVY MAN

Surpasses Gardner in Outlining Plans For Defense.

WANTS ARMY OF 2,000,000

Would Forever Make It Impossible For Any Foreign Nation to Attack This Country—Asserts That Sooner or Later We Must Have a Great Fleet on the Pacific.

By ARTHUR W. DUNN.

Washington, June 1.—[Special.]—Hoke Smith is more than a supporter of Augustus P. Gardner. He has surpassed him. The Massachusetts man wanted a good navy and a good army in order to meet emergencies. The Georgia man wants a superior army and navy, one which will forever make it impossible for any foreign nation to attack this country.

"We ought to have 2,000,000 men drilling and being trained for soldiering," said Senator Smith, thus quadrupling the number he suggested a few weeks ago. "We need not keep them under arms, but we could train them to be soldiers," he added, thus bearing out what a number of military men have advocated in regard to having a reserve force of trained men.

Navy in the Pacific.

"The fleet is not going into the Pacific ocean—not now," remarked Senator Smith when it was suggested to him that under present conditions it might be unwise to have the fleet in those waters. "But the time is coming when our strongest naval force should be in the Pacific," declared the Georgia senator. "Our commerce must expand, must find an outlet, and the orient offers the market which we must share, and we must have a sufficient naval force to enforce our demands for equal treatment in the great market which will be opened to us."

Is a Peace Man.

"I am a peace man," continued this southern senator, who seems to be as emphatic if not quite so volatile as Gardner. "I believe in peace and believe that the best way to secure it is to have the country so well prepared that no other nation will want to attack us and we can demand and enforce our just rights against any other nation. Who knows what will follow the conclusion of the present war in Europe? It is a fight for territory, for room to expand. What will be the demands of the successful nations when it is concluded? And what answer can the United States make to such demands unless we are in a position to enforce them?"

It must be recalled that Senator Smith is the most insistent man in public life of freedom of traffic on the seas, especially in regard to such goods as cotton and food supplies for neutral ports and for Germany if reached through neutral or German ports.

Weeks Has the Bee.

John Weeks has the presidential bee. He is a sure enough candidate," remarked one of the Massachusetts senator's friends who saw him after he had returned from a trip to the Pacific coast.

"How do you know? Did he say so?" asked an anxious listener. "No; he refused absolutely to say anything about it," was the reply. "Before he went away he would talk about the possibilities. Now he won't say a word. That is enough for me. He not only has the presidential bee, but he's been stung."

Jim Hill's Prediction.

Only a short time ago a report was printed that a steamer going through the Panama canal would carry flour and other freights from Minneapolis and St. Paul to the Pacific coast. That reminded me that a number of years ago I heard Jim Hill, the great northwestern railroad man, before a committee of congress. The discussion was over an amendment to the interstate commerce law, but a reference was made to the Panama canal and its probable effect on freights across the continent.

"See here," said Hill, going over to a map of the United States hanging on the wall. "Let us take heavy freights such as manufactured at Pittsburgh. They will have to be shipped by rail to the Atlantic seaboard. We will load them on cars and ship them to a point on the great lakes; load them on boats and ship them by water to Duluth, from there by rail to Puget sound. Meanwhile where are your Panama shipments? Somewhere off in the Pacific. In the matter of time we can overcome the lower freight rate by the canal."

But yet there are shipments of Hill's pet products from his pet cities showing that even the greatest minds may err.

Not Pleasing to Lee.

"Mayor Preston of Baltimore will be the next senator from Maryland," unequivocally declares a man from that state, citing the majority by which Preston was recently elected. And he does not take into consideration the fact that Blair Lee is senator from Maryland, with a term expiring next year, and ready to be re-elected. Besides Lee has the endorsement of the administration; is a pet of Bryan's and belongs to the F. F. M.'s, or whatever they call the families who date back to the Lord Baltimores.

Telephone Competition  
Talk No. 1

Brainerd is being told that two telephones are a nuisance. This is an error. If another employee meant more business you would hire that extra man. An extra man generally means another desk. Having another desk around may be inconvenient. The new business offsets it. So another telephone may take a little more room on your desk—but the business it will bring more than repays.

Another company means competition. Competition means more telephones. Statistics show that cities having competition have from twenty-five to a hundred per cent more telephones than cities of like size served by monopoly.

More telephones means more business. More business means greater population. Greater population advances prosperity.

## THE PARK BOARD CARNIVAL COMING

The Tom W. Allen Shows in the City for One Big Week on Main Street Many Attractions

JUNE 7TH TO 12TH INCLUSIVE

31 Cars, 35 Piece Band, 2 Calliopes, Mammoth Ferris Wheel, Beautiful Jumping Horses, Etc.

Appearing under the auspices of the Brainerd Park Board, the Tom W. Allen shows, said to be the world's premier carnival company, open an engagement on Main street June 7 to 12 inclusive and the proceeds of the carnival will go to a good purpose, being mainly devoted to building bath houses at Lum park.

The carnival will be void of any distasteful attractions. The Allen shows are new and up to the minute in every detail. All the equipment is high class and the various features are largely on the circus style.

All the fronts are beautiful hand carved wood and highly decorated and illuminated. The tableaux and parade wagons are masterpieces of the builders' art.

Morality is the keynote of the entire organization and the management promises no bizarre girl shows and asserts that no snake or freak shows are carried. There are fifteen different amusement features and the great autrodrome with its lady drivers will be one of the big features. The track is almost perpendicular and is but 61 feet in diameter.

The hippodrome, another feature, is a one-ring circus displaying the famous Holland Brothers, the greatest bareback riders in the world who were with Ringling Brothers for the past five seasons.

The Park Board is to be congratulated on securing such a large and clean organization of this kind. The Tom W. Allen shows travel in their own train of 31 cars.

Prof. Strout and his 35 piece band will play a sacred concert Sunday June 6, at 7:30 in Gregory park. A cordial invitation is extended to the public to hear them as they play in the Parker band stand.

### Card of Thanks

We, the members of Pap Thomas Post, No. 39, wish to thank the citizens of Brainerd for the interest taken in Memorial Day. We wish to especially thank the bands and the Apollo quartet and Prof. Cobb for his untiring interest and work in getting the schools to turn out in such numbers. Also the teachers and scholars for the part taken by them in making the day one to be long remembered. Also Rev. M. L. Hostager for his stirring and eloquent address. We wish to thank the Chamber of Commerce for the interest shown and help rendered in making the day a success.

### AH! MY TIRED FEET ACHED SO FOR "TIZ"

"TIZ" Eases Your Sore, Burning, Swollen, Sweaty, Calloused Feet and Corns

Just take your shoes off and then put those weary shoe-crinkled, aching, burning, corn-pestered, bunion-tortured feet of yours in a "TIZ" bath. Your toes will wriggle with joy, they'll look up at you and almost talk and then they'll take another dive in that "TIZ" bath.

When our feet feel like lumps of lead—all tired out—just try "TIZ". Its grand—its glorious. Your feet will dance with joy; also you will find all pain gone from corns, callouses and bunions.

There's nothing like "TIZ". It's the only remedy that draws out all the poisonous exudations which puff up your feet and cause foot torture.

Get a 25 cent box of "TIZ" at any drug or department store—don't wait. Ah! how glad your feet get; how comfortable your shoes feel. You can wear shoes a size smaller if you desire.

### "DRY AND WET" STATISTICS

Writer in Communication Urges that the "Dry" Program be Tried Out in Brainerd

Editors Dispatch:—It may be interesting to your readers to spend a few minutes with a resume of affairs in "dry" Brainerd. First let us consider arrests. Brainerd has averaged 20 arrests of which 13 were drunks for the month of May during the five years previous to 1915. During the month of May just closed there have been 13 arrests, 8 were drunks; 3 disorderly conduct and 2 blind piggers. One was a transient who came into the city drunk.

One of the men arrested was unable to pay his fine and his fine was paid by a former saloon keeper who has since been convicted in municipal court for blind pigging.

The police have brought ample evidence to the municipal court that there has been liquor in Brainerd and have had other results which show that there is still more but have been unable to secure the evidence which will stand in court. All this is to be expected. A business which has been so protected and which has created such an insatiable appetite as it has in some men and who will make it profitable for men to evade the law, cannot be suppressed at once. It will take months and perhaps a year or two to entirely suppress it but this should not discourage thinking people. No other reform is wrought in a moment. Let every citizen stand by the mayor and police, have patience for it is an insidious evil which they seek to eradicate, and the task will be completed.

Mayor Elise and his police are doing their best to enforce the law against illicit liquor selling as well as against other evils and they merit the heartiest support.

The blind pigging has been bad enough but its results are not to be compared to 21 saloons which openly invited men to become steady patrons. One other fact should be remembered and that is that many individuals "planted" a large supply for personal use and all drunks cannot be attributed to illicit selling.

It should be noted that a number of the empty buildings are already being occupied by other businesses which will work more benefit to mankind. The history of other towns is that the friends which went to the saloons is soon put into other channels which require desirable buildings and Brainerd will doubtless find the same situation here.

One incident may serve to show something of the results of "dry" Brainerd which tell for much in a community. A thrifty man and his wife had by hard work purchased a home and lost it through drink. They have since lived in cramped quarters. When the voters said "dry for Brainerd," they said, now we will go to work and buy a home again. It is in the obscure places of our city where the greatest beneficial result will be first felt and when the home is strengthened the city will feel a most responsive throb. This is the history of dry towns. Brainerd has had licensed saloons for over 30 years and had it not been for applying the surplus from the city hall building fund to the general expense fund the city would have had a deficit last year and this in addition to the largest saloon license she has ever had. Let us now try the "dry" program for a few years.

## "RASCALITY AND HONESTY THERE"

Says the "Iron Trade Review" in an Editorial on the Cuyuna Iron Country Today

WHAT CHECKED DEVELOPMENT

Claims to Have Punctured Wonderful Tales of Marvelous Deposits of Manganese Ore

The Iron Trade Review of May 27 has an editorial headed "The Iron Country Today—Rascality and Honesty on the Cuyuna" in which that weekly periodical asserts there are some fakirs on the range as well as men of high character working along legitimate lines. The editorial states:

"Stock jobbing schemes and rank misrepresentations have seriously interfered with the development of the Cuyuna range. During the past few months, The Iron Trade Review has punctured some of the ridiculous claims made by promoters, especially those who were telling wonderful tales of marvelous deposits of manganese ore.

"No one was more pleased by the publication of the 'Truth About the Cuyuna' in The Iron Trade Review of Nov. 6, 1914, than the men who are honestly endeavoring to develop this new range and believe it has a great future. Said one of these men to the writer a few days ago: 'The Iron Trade Review is absolutely right so far as it has gone in exploding false claims about the Cuyuna, but it has not gone far enough, for the stock jobbing schemes which have been attempted, and to some extent carried out, are so bad as to be almost beyond belief. Claims concerning the extent of the ore, its analysis and other features have deliberately and maliciously represented the facts. Solicitors have gone from house to house in many towns of the northwest, soliciting subscriptions to companies having properties of little or no value. Many people have been misled and have invested their hard-earned money in these stocks.'

"Another operator on the Cuyuna asserted that he and other owners of mining property on that range have done all in their power to suppress the fakirs, but had met with little success.

"In contrast with the fakirs are men of high character who are working along legitimate lines, and while some of them may be very enthusiastic, there is reason for believing that their claims are well founded. Their estimates for production in 1914 were not fulfilled, as only \$59,404 tons were shipped, although it was estimated that the shipments would amount to 1,500,000 tons. But men of the type of George H. Crosby and John A. Savage are working along sane and conservative lines. The policy is shown in the case of the development of the town of Crosby. Of course Crosby has its 'white way,' a new mining town in the Lake Superior district must have its 'white way,' but in Crosby there is nothing of the extravagance displayed at Hibbing and other mining towns. Crosby promises to be a very pretty and comfortable city in an important mining center. Mr. Savage has a high grade bessemer mine. The Inland Steel Co. and other companies have valuable properties.

"On the whole, we believe that the Cuyuna has a bright future, but investors should be exceedingly cautious in investigating before buying any stock in Cuyuna properties. They would do well to read the recent bulletin of the Minnesota School of Mines on 'Preliminary Concentration Tests on Cuyuna Ores' and carefully peruse other documents relating to the Cuyuna deposits, including the report of the Minnesota tax commission."

Notwithstanding all The Iron Trade Review has said, there are mangiferous ore properties on the range. There are assay reports to back such statements. Much as the German submarines are hated, they are indirectly bringing mangiferous ores to the attention of furnaces and steel men by closing down the English supply of ferro-manganese and shutting off the Russian supply which was wont to find passage through the Dardanelles. Elsewhere in the same issue of The Iron Trade Review that journal says:

"English ferro-manganese is now quoted at \$100, and sales of small quantities have been made at that figure. It is clear that the English makers are conserving their supplies and there is increasing anxiety as to the ability of steelmakers in this country to meet their requirements. Uncertainty concerning the opening of the Dardanelles, which would make possible the shipment of Russian manganese ore, adds to the seriousness of the situation. Owing to the scarcity and the high price of ferro-manganese, the unusual demand for manganese has become a factor of the Lake Superior iron ore market."

### HAS ANOTHER JOHNSON

Cliff Blankenship, Who Gave Leslie Bush His Chance, Now Discovers Williams

Cliff Blankenship, discoverer of Walter Johnson and the man, who as catcher and manager of the Missoula team gave Joe Bullet Leslie Bush his chance, is now managing the Salt Lake City team of the Pacific Coast circuit and has his men leading the league, mainly through the effectiveness of a young pitcher named Williams. Blankenship is admittedly a wonderful judge of pitchers, being responsible for Tom Seaton, Dutch Leonard, Harry Krause and Bill Steen. He says that Williams is another Johnson.

Minor league managers have a habit of boosting their own players in the hope of getting a good price for them from major league clubs, but Blankenship is evidently sincere when he goes so far as to state that Williams is as fast as, if not faster than Johnson, but decidedly green. When Blankenship brought Johnson to Washington the speed king was as green as they come, and Cliff got the laugh, but the laugh is on the other side now.

### A GOOD SHOWING

Booster Band of Southeast Brainerd Played Well on Memorial Day, in Exercises and Parade

The Booster band of Southeast Brainerd played well on Memorial Day and gained many favorable comments. The band has also made a success in playing for its dances, for there, if anywhere, exact time is required.

Their parade music was relished by the children, who called the Booster band their band. The instrumentation of the band, only lately organized, is:

First cornet, solo, Chris Elvig.  
First cornet, Wm. Domschot.  
Clarinet solo, Clarence Brown.  
First clarinet, Art Peterson.  
Second clarinet, W. E. Brown.  
Saxophones, soprano A. H. Ohms, alto O. S. Erickson, tenor Robert Anderson, baritone C. H. Ohms.

### ST. MATHIAS

The basket social that was given for the benefit of the church was well attended and all reported a good time. Some of the Brainerd boys were out to play St. Mathias Sunday. The score was in favor of St. Mathias.

Mrs. George Franklyn and Mrs. Delrose DeRosier were in Brainerd Monday on business.

Miss Ona Duchesneau, who was away in a Winnipeg hospital training for a nurse, arrived Monday. She will visit around in the country for some time.

Hubert Franklyn, who is employed in the Sisters hospital was down to visit his folks Saturday and Sunday.

A baby girl was born to Mr. and Mrs. John Perlinger last week. Both mother and child are doing well.

Miss Myriall Magnan has been staying with Mrs. Leon DeRosier, while he is working on the road.

A bunch of young people spent the evening pleasantly Sunday at Veillett's.

Mr. Benson, who is employed at the N. P. shops at Brainerd was visiting at Severe Dugre's the latter part of the week.

Miss Edwardena Heroux, who has been away for the past two weeks, returned to her home Friday.

Mrs. Herb Flansburg and nephew returned from Rochester Saturday. It is believed that they will have to take the boy back in a couple of weeks for treatment.

The farmers in this vicinity are rushing with their seedling so they can work on the road.

Mrs. Henry Langevin was in Brainerd Monday.

### Fire in N. E. Brainerd

The home of Levi Bolland, 1515 Northeast Ninth street, was entirely destroyed by fire this morning. The house of about five rooms was discovered on fire at 4 o'clock this morning. The occupants saved nothing but a trunk and a few clothes.

### Plums

The Thorp Northwestern Plum Tree with its mass of fragrant blossoms in spring, and beautifully colored fruit later in summer, is a beautiful ornamental tree in addition to its delicious fruit. This year they may be safely planted up to June 1st, and I will replace any that die. Price three for \$1.00.

### SOUTH LONG LAKE WINS

Beats North Long Lake 7 to 6, Great Pitchers' Battle Develops, Fred Houle in the Crisis

South Long Lake defeated North Long Lake 7 to 6 in a game on the Bresler farm. It was a pitchers' battle all the way through. The batteries for North Long Lake were Sandgren and Gibb and for South Long Lake, Rasmussen and Peterson.

The game wound up with Phil Houle on third base. Fred Houle was at bat. Two men were out and two strikes were called on the batter. The next ball sailed over the plate, Houle met it squarely on the nose and drove a long hit into centerfield and South Long Lake had won.

DISASTROUS TELEPHONE VENTURES

From the New York Commercial  
Careful readers of the newspapers cannot fail to have noted that at numerous points throughout the country independent telephone companies are coming to grief—getting near to the end of their resources and facing financial disaster. Conspicuous instances of this are presented at Rock Island, Illinois; at Ashtabula, Ohio; at Philadelphia, and at Gallipolis, Ohio. The primary cause of the trouble in every case is to furnish a telephone service at a price less than the cost of it. And, according to an article in the current issue of Public Service of Chicago, some of them are the result of reputable business men being drawn into investment in enterprises by promoters who undoubtedly know that good service could not be rendered at the rates announced in advance. At Rock Island the Union Electric Telephone Company is losing \$1,000 a month, but it is tied up by a provision of its franchise that prohibits the sale of its properties and business. So it has been moved to go deeper into its stockholders' pockets to pay for advertising its dilemma, one of which advertisements tells its tale of woe in this way:

"If you were one of the three men with \$600,000 invested in a business and were called upon to bear your proportionate share of a monthly loss of \$1,000—and there was no possible means of overcoming the deficit—what would be your action to relieve yourself of the burden? You would sell whatever of your tangible assets were marketable, shut up shop, quit and get your money into some investment that would return you a profit. Most naturally you would. Three men own the properties of the Union Electric Telephone Company, have exactly \$600,000 tied up in the tri-cities and they are putting \$1,000 every month to keep the exchanges in operation until such time as they are permitted to sell their holdings.

"You will agree it's not a comfortable position to be placed in. We have hung to the independent telephone cause here continuously eight years. We bought the tri-city independent system from promoters. The latter were the builders. The business had all the earmarks of promise and security for the future when we took it over. But—and probably you will agree with us—the majority of the people have come to the conclusion, after a trial, that duplicate telephone service is not necessary; that it is merely an added expense at best. When the discarding of the second telephone was commenced we, the weaker company, naturally were the one to be hit first. We have battled against the tide, but the outlook appears more discouraging daily. We are simply forced to withdraw from the field. We are only asking the public to support us in our appeal to the city councils to relieve us from the confiscatory conditions of our franchise ordinance that we may dispose of our physical assets, buildings, equipment, and so forth, to the highest bidder. At best we will not get more than a small percentage of the amount we have invested here."

It is something decidedly unusual and extraordinary if not wholly unprecedented, for a business enterprise to deliberately advertise to the world its financial straits, to pay out money for letting the people know what a miserable failure it is. But this situation in Rock Island is only the logical result of a public-service corporation tying itself up in advance to maintain a certain maximum rate for its service and to pledge itself not to sell out to a competitor. No man, no firm, no company can tell today what conditions are going to exist in its business six months, a year or five years from now; and it is supreme folly to make pledges for the future basis on today's situation. In ninety-nine cases out of one hundred the best-made estimates will go awry.

## THE PARK BOARD CARNIVAL COMING

The Tom W. Allen Shows in the City  
for One Big Week on Main Street  
Many Attractions

JUNE 7TH TO 12TH INCLUSIVE

31 Cars, 35 Piece Band, 2 Calliopes,  
Mammoth Ferris Wheel, Beau-  
tiful Jumping Horses, Etc.

Appearing under the auspices of  
the Brainerd Park Board, the Tom W.  
Allen shows, said to be the world's  
premier carnival company, open an  
engagement on Main street June 7  
to 12 inclusive and the proceeds of  
the carnival will go to a good pur-  
pose, being mainly devoted to build-  
ing bath houses at Lum park.

The carnival will be void of any  
distasteful attractions. The Allen  
shows are new and up to the minute  
in every detail. All the equipment  
is high class and the various features  
are largely on the circus style.

All the fronts are beautiful hand  
carved wood and highly decorated  
and illuminated. The tableaux and  
parade wagons are masterpieces of  
the builders' art.

Morality is the keynote of the en-  
tire organization and the manage-  
ment promises no bizarre girl shows  
and asserts that no snake or freak  
shows are carried. There are fifteen  
different amusement features and the  
great autodrome with its lady driv-  
ers will be one of the big features.  
The track is almost perpendicular  
and is but 61 feet in diameter.

The hippodrome, another feature,  
is a one-ring circus displaying the  
famous Holland Brothers, the great-  
est bareback riders in the world who  
were with Ringling Brothers for the  
past five seasons.

The Park Board is to be congratu-  
lated on securing such a large and  
clean organization of this kind. The  
Tom W. Allen shows travel in their  
own train of 31 cars.

Prof. Strout and his 35 piece band  
will play a sacred concert Sunday  
June 6, at 7:30 in Gregory park. A  
cordial invitation is extended to the  
public to hear them as they play in  
the Parker band stand.

### Card of Thanks

We, the members of Pap Thomas

zens of Brainerd for the interest tak-  
en in Memorial Day. We wish to es-  
pecially thank the bands and the  
Apollo quartet and Prof. Cobb for his  
untiring interest and work in getting  
the schools to turn out in such num-  
bers. Also the teachers and scholars  
for the part taken by them in making  
the day one to be long remembered.  
Also Rev. M. L. Hostager for his stir-  
ring and eloquent address. We wish  
to thank the Chamber of Commerce  
for the interest shown and help ren-  
dered in making the day a success.

### AH! MY TIRED FEET ACHED SO FOR "TIZ"

"TIZ" Eases Your Sore, Burning,  
Swollen, Sweaty, Calloused Feet  
and Corns

Just take your shoes off and then  
put those weary shoe-crinkled, ach-  
ing, burning, corn-pestered, bunion-  
tortured feet of yours in a "TIZ"  
bath. Your toes will wriggle with  
joy, they'll look up at you and almost  
talk and then they'll take another  
dive in that "TIZ" bath.

When your feet feel like lumps of  
lead—all tired out—just try "TIZ".  
Its grand—its glorious. Your feet  
will dance with joy; also you will  
find all pain gone from corns, cal-  
louses and bunions.

There's nothing like "TIZ" It's  
the only remedy that draws out all  
the poisonous exudations which puff  
up your feet and cause foot torture.

Get a 25 cent box of "TIZ" at any  
drug or department store—don't wait.  
Ah! how glad your feet get; how  
comfortable your shoes feel. You  
can wear shoes a size smaller if you  
desire.

### "DRY AND WET" STATISTICS

Writer in Communication Urges that  
the "Dry" Program be Tried  
Out in Brainerd

Editors Dispatch:—  
It may be interesting to your read-  
ers to spend a few minutes with a  
resume of affairs in "dry" Brainerd.  
First let us consider arrests. Brainerd  
has averaged 20 arrests of which  
13 were drunks for the month of May  
during the five years previous to  
1915. During the month of May  
just closed there have been 13 arrests,  
8 were drunks; 3 disorderly conduct  
and 2 blind piggers. One was a  
transient who came into the city  
drunk.

One of the men arrested was un-  
able to pay his fine and his fine was  
paid by a former saloon keeper who  
has since been convicted in munici-  
pal court for blind pigging.

The police have brought ample evi-  
dence to the municipal court that  
there has been liquor in Brainerd and  
have had other results which show  
that there is still more but have been  
unable to secure the evidence which  
will stand in court. All this is to  
be expected. A business which has  
been so protected and which has cre-  
ated such an insatiable appetite as it  
has in some men and who will make  
it profitable for men to evade the law,  
cannot be suppressed at once. It will  
take months and perhaps a year or  
two to entirely suppress it but this  
should not discourage thinking peo-  
ple. No other reform is wrought in  
a moment. Let every citizen stand  
by the mayor and police, have pa-  
tience for it is an insidious evil  
which they seek to eradicate, and  
the task will be completed.

Mayor Eise and his police are do-  
ing their best to enforce the law  
against illicit liquor selling as well  
as against other evils and they merit  
the heartiest support.

The blind pigging has been bad  
enough but its results are not to be  
compared to 21 saloons which openly  
invited men to become steady patrons.  
One other fact should be remem-  
bered and that is that many individ-  
uals "planted" a large supply for  
personal use and all drunks cannot  
be attributed to illicit selling.

It should be noted that a number  
of the empty buildings are already  
being occupied by other businesses  
which will work more benefit to man-  
kind. The history of other towns is  
that the friends which went to the  
saloons is soon put into other chan-  
nels which require desirable build-  
ings and Brainerd will doubtless find  
the same situation here.

One incident may serve to show  
something of the results of "dry"  
Brainerd which tell for much in a  
community. A thrifty man and his  
wife had by hard work pur-  
chased a home and lost it through  
drinks. They have since lived in  
cramped quarters. When the voters  
said "dry for Brainerd," they said,  
how we will go to work and buy a  
home again. It is in the obscure  
places of our city where the greatest  
beneficial result will be first felt  
and when the home is strengthened  
the city will feel a most responsive  
throb. This is the history of dry  
towns. Brainerd has had licensed  
saloons for over 30 years and had it  
not been for applying the surplus  
from the city hall building fund to  
the general expense fund the city  
would have had a deficit last year  
and this in addition to the largest  
saloon license she has ever had. Let  
us now try the "dry" program for a  
few years.

### POINCARÉ IS AN ABSTAINER

President of French Republic Takes

Paris, May 31.—Raymond Poincaré,  
the president of the French republic,  
replying to a request made by the Na-  
tional Anti-Alcoholic league, sent  
through his secretary the following  
letter:

"You ask the president of the re-  
public to follow the example of other  
heads of states and make an agree-  
ment to abstain from all spirituous  
liquors during the war. That is an  
engagement the president takes wil-  
lingly and without difficulty, not only  
for the duration of the war, but even  
afterward. He never drinks alcoholic  
liquors."

## "RASCALITY AND HONESTY THERE"

Says the "Iron Trade Review" in an  
Editorial on the Cuyuna Iron  
Country Today

### WHAT CHECKED DEVELOPMENT

Claims to Have Punctured Wonderful  
Tales of Marvelous Deposits of  
Manganese Ore

The Iron Trade Review of May 27  
has an editorial headed "The Iron  
Country Today—Rascality and Hon-  
esty on the Cuyuna" in which that  
weekly periodical asserts there are  
some fakirs on the range as well as  
men of high character working along  
legitimate lines. The editorial  
states:

"Stock jobbing schemes and rank  
misrepresentations have seriously in-  
terfered with the development of the  
Cuyuna range. During the past few  
months, The Iron Trade Review has  
punctured some of the ridiculous  
claims made by promoters, especially  
those who were telling wonderful  
tales of marvelous deposits of man-  
ganease ore.

"No one was more pleased by the  
publication of the 'Truth About the  
Cuyuna' in The Iron Trade Review  
of Nov. 6, 1914, than the men who  
are honestly endeavoring to develop  
this new range and believe it has a  
great future. Said one of these men  
to the writer a few days ago: 'The  
Iron Trade Review is absolutely right  
so far as it has gone in exploding  
false claims about the Cuyuna, but it  
has not gone far enough, for the  
stock jobbing schemes which have  
been attempted, and to some extent  
carried out, are so bad as to be al-  
most beyond belief. Claims concern-  
ing the extent of the ore, its analysis  
and other features have deliberately  
and maliciously represented the facts.  
Solicitors have gone from house to  
house in many towns of the north-  
west, soliciting subscriptions to com-  
panies having properties of little or  
no value. Many people have been  
misled and have invested their hard-  
earned money in these stocks.'

"Another operator on the Cuyuna  
asserted that he and other owners of  
mining property on that range have  
done all in their power to suppress  
the fakirs, but had met with little  
success.

"In contrast with the fakirs are  
men of high character who are work-  
ing along legitimate lines, and while  
some of them may be very enthusias-  
tic, there is reason for believing that  
their claims are well founded. Their  
estimates for production in 1914 were  
not fulfilled, as only 859,404 tons  
were shipped, although it was esti-  
mated that the shipments would  
amount to 1,500,000 tons. But men  
of the type of George H. Crosby and  
John A. Savage are working along  
same and conservative lines. The  
policy is shown in the case of the de-  
velopment of the town of Crosby.  
Of course Crosby has its 'white way,'  
a new mining town in the Lake Su-  
perior district must have its 'white  
way,' but in Crosby there is nothing  
of the extravagance displayed at Hib-  
bing and other mining towns. Crosby  
promises to be a very pretty and com-  
fortable city in an important mining  
center. Mr. Savage has a high grade  
bessemer mine. The Inland Steel Co.  
and other companies have valuable  
properties.

"On the whole, we believe that  
the Cuyuna has a bright future, but  
investors should be exceedingly cau-  
tious in investigating before buying  
any stock in Cuyuna properties. They  
would do well to read the recent bul-  
letin of the Minnesota School of  
Mines on 'Preliminary Concentration  
Tests on Cuyuna Ore' and carefully  
peruse other documents relating to  
the Cuyuna deposits, including the  
report of the Minnesota tax commis-  
sion."

Notwithstanding all The Iron  
Trade Review has said, there are  
manganiferous ore properties on the  
range. There are assay reports to  
back such statements. Much as the  
German submarines are hated, they  
are indirectly bringing manganiferous  
ores to the attention of furna-  
men and steel men by closing down  
the English supply of ferro-mangan-  
ese and shutting off the Russian sup-  
ply which was wont to find passage  
through the Dardanelles. Elsewhere  
in the same issue of The Iron Trade  
Review that journal says:

"English ferro-manganese is now  
quoted at \$100, and sales of small  
quantities have been made at that  
figure. It is clear that the English  
makers are conserving their supplies  
and there is increasing anxiety as to  
the ability of steelmakers in this  
country to meet their requirements.  
Uncertainty concerning the opening  
of the Dardanelles, which would  
make possible the shipment of Rus-  
sian manganese ore, adds to the ser-  
iousness of the situation. Owing to  
the scarcity and the high price of  
ferro-manganese, the unusual demand  
for manganates has become a factor  
of the Lake Superior iron ore market."

### HAS ANOTHER JOHNSON

Cliff Blankenship, Who Gave Leslie  
Bush His Chance, Now Dis-  
covers Williams

Cliff Blankenship, discoverer of  
Walter Johnson and the man, who as  
catcher and manager of the Missoula  
team gave Joe Bullet Leslie Bush his  
chance, is now managing the Salt  
Lake City team of the Pacific Coast  
circuit and has his men leading the  
league, mainly through the effective-  
ness of a young pitcher named Wil-  
liams. Blankenship is admittedly a  
wonderful judge of pitchers, being re-  
sponsible for Tom Seaton, Dutch  
Leonard, Harry Krause and Bill Steen.  
He says that Williams is another  
Johnson.

Minor league managers have a hab-  
it of boosting their own players in  
the hope of getting a good price for  
them from major league clubs, but  
Blankenship is evidently sincere  
when he goes so far as to state that  
Williams is as fast as, if not faster  
than Johnson, but decidedly green.  
When Blankenship brought Johnson  
to Washington the speed king was as  
green as they come, and Cliff got the  
laugh, but the laugh is on the other  
side now.

### A GOOD SHOWING

Booster Band of Southeast Brainerd  
Played Well on Memorial Day,  
in Exercises and Parade

The Booster band of Southeast  
Brainerd played well on Memorial  
Day and gained many favorable com-  
ments. The band has also made a  
success in playing for its dances, for  
there, if anywhere, exact time is re-  
quired.

Their parade music was relished by  
the children, who called the Booster  
band their band. The instrumen-  
tation of the band, only lately or-  
ganized, is:

First cornet, solo, Chris Elvig.  
First cornet, Wm. Domschot.  
Clarinet solo, Clarence Brown.  
First clarinet, Art Peterson.  
Second clarinet, W. E. Brown.  
Saxophones, soprano A. H. Ohms,  
alto O. S. Erickson, tenor Robert An-  
derson, baritone C. H. Ohms.  
First alto, Martin Anderson.  
Second alto, Sam Hill.  
Baritone, J. A. Ellis.  
Trombones Henry Elvig and Gus  
Lind.  
Tenor, Andy Hill.  
Tuba, Carl Roney.  
Snare drum, George Bouck.  
Bass drum, Matt Hill.

### ST. MATHIAS

The basket social that was given  
for the benefit of the church was well  
attended and all reported a good time.  
Some of the Brainerd boys were out  
to play St. Mathias Sunday. The  
score was in favor of St. Mathias.

Mrs. George Franklin and Mrs.  
Delrose DeRosier were in Brainerd  
Monday on business.

Miss Ona Duchesneau, who was  
away in a Winnipeg hospital train-  
ing for a nurse, arrived Monday. She  
will visit around in the country for  
some time.

Hubert Franklyn, who is employed  
in the Sisters hospital was down to  
visit his folks Saturday and Sunday.

A baby girl was born to Mr. and  
Mrs. John Perlinger last week. Both  
mother and child are doing well.

Miss Myriah Magnan has been  
staying with Mrs. Leon DeRosier,  
while he is working on the road.

A bunch of young people spent the  
evening pleasantly Sunday at Veil-  
lett's.

Mr. Benson, who is employed at  
the N. P. shops at Brainerd was vis-  
iting at Severe Dugre's the latter part  
of the week.

Miss Edwardena Heroux, who has  
been away for the past two  
weeks, returned to her home Friday.  
Mrs. Herb Flansburg and nephew  
returned from Rochester Saturday.  
It is believed that they will have to  
take the boy back in a couple of  
weeks for treatment.

The farmers in this vicinity are  
rushing with their seedling so they  
can work on the road.

Mrs. Henry Langevin was in Brainerd  
Monday.

### Fire in N. E. Brainerd

The home of Levi Bolland, 1515  
Northeast Ninth street, was entirely  
destroyed by fire this morning. The  
house of about five rooms was discov-  
ered on fire at 4 o'clock this morn-  
ing. The occupants saved nothing  
but a trunk and a few clothes.

### Plums

The Thorp Northwestern Plum  
Tree with its mass of fragrant blos-  
soms in spring, and beautifully col-  
ored fruit later in summer, is a beau-  
tiful ornamental tree in addition to  
its delicious fruit. This year they  
may be safely planted up to June 1st,  
and I will replace any that die. Price  
three for \$1.00.

### SOUTH LONG LAKE WINS

Beats North Long Lake 7 to 6, Great  
Pitchers' Battle Develops, Fred  
Houle in the Crisis

South Long Lake defeated North  
Long Lake 7 to 6 in a game on the  
Bresler farm. It was a pitchers' bat-  
tle all the way through. The bat-  
teries for North Long Lake were  
Sandgren and Gibb and for South  
Long Lake, Rasmussen and Peterson.

The game wound up with Phil  
Houle on third base. Fred Houle  
was at bat. Two men were out and  
two strikes were called on the batter.  
The next ball sailed over the plate,  
Houle met it squarely on the nose  
and drove a long hit into centerfield  
and South Long Lake had won.

DISASTROUS TELEPHONE  
VENTURES

From the New York Commercial

Careful readers of the newspapers  
cannot fail to have noted that at  
numerous points throughout the  
country independent telephone com-  
panies are coming to grief—getting  
near to the end of their resources  
and facing financial disaster. Con-  
spicuous instances of this are present-  
ed at Rock Island, Illinois; at Ashtabula,  
Ohio; at Philadelphia, and at  
Gallipolis, Ohio. The primary cause  
of the trouble in every case is to  
furnish a telephone service at a price  
less than the cost of it. And, accord-  
ing to an article in the current is-  
sue of Public Service of Chicago, some  
of them are the result of reputable  
business men being drawn into in-  
vestment in enterprises by promoters  
who undoubtedly know that good  
service could not be rendered at the  
rates announced in advance. At  
Rock Island the Union Electric Tele-  
phone Company is losing \$1,000 a  
month, but it is tied up by a provision  
of its franchise that prohibits the  
sale of its properties and business.  
So it has been moved to go deeper in-  
to its stockholders' pockets to pay  
for advertising its dilemma, one of  
which advertisements tells its tale  
of woe in this way:

"If you were one of the three men  
with \$600,000 invested in a business  
and were called upon to bear your  
proportionate share of a monthly loss  
of \$1,000—and there was no possible  
means of overcoming the deficit—  
what would be your action to relieve  
yourself of the burden? You would  
sell whatever of your tangible assets  
were marketable, shut up ship, quit  
and get your money into some in-  
vestment that would return you a  
profit. Most naturally you would.  
Three men own the properties of the  
Union Electric Telephone Company,  
have exactly \$600,000 tied up in the  
tri-cities and they are putting \$1,000  
every month to keep the exchanges  
in operation until such time as they  
are permitted to sell their holdings.

"You will agree it's not a comfort-  
able position to be placed in. We  
have hung to the independent tele-  
phone cause here continuously eight  
years. We bought the tri-city inde-  
pendent system from promoters. The  
latter were the builders. The busi-  
ness had all the earmarks of prom-  
ise and security for the future when  
we took it over. But—and probab-  
ly you will agree with us—the major-  
ity of the people have come to the  
conclusion, after a trial, that dupli-  
cate telephone service is not neces-  
sary; that it is merely an added ex-  
pense at best. When the discarding  
of the second telephone was com-  
menced we, the weaker company,  
naturally were the one to be hit  
first. We have battled against the  
tide, but the outlook appears more  
discouraging daily. We are simply  
forced to withdraw from the field.  
We are only asking the public to  
support us in our appeal to the city  
councils to relieve us from the con-  
fiscatory conditions of our franchise  
ordinance that we may dispose of  
our physical assets, buildings, equip-  
ment, and so forth, to the highest  
bidder. At best we will not get more  
than a small percentage of the  
amount we have invested here."

It is something decidedly unusual  
and extraordinary if not wholly un-  
precedented, for a business enter-  
prise to deliberately advertise to the  
world its financial straits, to pay out  
money for letting the people know  
what a miserable failure it is. But  
this situation in Rock Island is only  
the logical result of a public-service  
corporation tying itself up in ad-  
vance to maintain a certain maxi-  
mum rate for its service and to  
pledge itself not to sell out to a com-  
petitor. No man, no firm, no com-  
pany can tell today what conditions  
are going to exist in its business six  
months, a year or five years from  
now; and it is supreme folly to make  
pledges for the future basis on to-  
day's situation. In ninety-nine  
cases out of one hundred the best-  
made estimates will go awry.

## SYNOPSIS.

Sanford Quest, master criminologist of the world, finds that in bringing to justice MacDougal, the murderer of Lord Ashleigh's daughter, he has but just begun a life-and-death struggle with a mysterious master criminal. In a hidden hut in Professor Ashleigh's garden he has seen an anthropoid ape skeleton and a living inhuman creature, half monkey, half man, destroyed by fire. In his room have appeared from nowhere black boxes, one containing diamonds torn from a lovely throat by a pair of armless, threatening hands, both with sarcastic, threatening notes, signed by the inscrutable hands. His valet, Ross Brown, and a caller, Miss Quigg, are murdered in his room. Laura and Lenora, his assistants, suspect Craig, the professor's valet. Lenora, abducted by the threatening hands, is rescued. Quest traps Craig, loses him, traps him again in the house where Lenora was imprisoned, and loses him yet again after a thrilling chase. The black boxes continue to appear in uncanny fashion with their notes of sarcasm, warning and suggestion of clues, all signed by the inhuman, armless hands.

### CHAPTER XVIII.

#### THE INHERITED SIN.

"Getting kind of used to these court-house shows, aren't you, Lenora?" Quest remarked, as they stepped from the automobile and entered the house in Georgia square.

"Could anyone feel much sympathy," she asked, "with those men? Red Gallagher, as they called him, is more like a great brutal animal than a human being. I think that even if they had sentenced him to death I should have felt that it was quite the proper thing to have done."

"Too much sentiment about those things," Quest agreed, clipping the end off a cigar. "Men like that are better off the face of the earth. They did their best to send me there."

"Here's a cablegram for you," Lenora exclaimed, bringing it over to him. "Mr. Quest, I wonder if it's from Scotland Yard?"

Quest tore it open. They read it together, Lenora standing on tiptoe to peer over his shoulder:

"Stowaway answering in every respect your description of Craig found on Durham. Has been arrested, as desired, and will be taken to Hamblin house for identification by Lord Ashleigh. Reply whether you are coming over, and full details as to charge."

"Good for Scotland Yard!" Quest declared. "So they've got him, eh? All the same, that fellow's as slippery as an eel. Lenora, how should you like a trip across the ocean, eh?"

"I should love it," Lenora replied. "Do you mean it, really?"

Quest nodded. "That fellow fooled me pretty well," he continued, "but somehow I feel that if I get my hands on him this time, they'll stay there till he stands where Red Gallagher did today. I don't feel content to let anyone else finish off the job. Got any relatives over there?"

"I have an aunt in London," Lenora told him, "the dearest old lady you ever saw. She'd give anything to have me make her a visit."

Quest moved across to his desk and took up a sailing list. He studied it for a few moments and turned back to Lenora.

"Send a cable off at once to Scotland Yard," he directed. "Say—An sailing on Lusitania tomorrow. Hold prisoner. Charge very serious. Have full warrants."

Lenora wrote down the message and went to the telephone to send it off. As soon as she had finished Quest took up his hat again.

"Come on," he invited. "The machine's outside. We'll just go and look in on the professor and tell him the news. Poor old chap, I'm afraid he'll never be the same man again."

They found the professor on his hands and knees upon a dusty floor. Carefully arranged before him were the bones of a skeleton, each laid in some appointed place.

"What about that unhappy man, Craig?" the professor asked, gloomily. "Isn't the Durham almost due now?"

Quest took out the cablegram from his pocket and passed it over. The professor's fingers trembled a little as he read it. He pushed it back, however, without immediate comment.

"You see, they have been cleverer over there than we were," Quest remarked.

"Perhaps," the professor assented. "They seem, at least, to have arrested the man. Even now I can scarcely believe that it is Craig—my servant Craig—who is lying in an English prison. Do you know that his people have been servants in the Ashleigh family for some hundreds of years?"

Quest was clearly interested. "Say, I'd like to hear about that!" he exclaimed. "You know I'm rather great on heredity, professor. What class did he come from then? Were his people just domestic servants always?"

The professor's face was for a moment troubled. He moved to his desk, rummaged about for a time, and finally produced an ancient volume.

"This really belongs to my brother, Lord Ashleigh," he explained. "He brought it over with him to show me

some entries concerning which I was interested. It contains a history of the Hamblin estate since the days of Cromwell, and here in the back, you see, is a list of our farmers, bailiffs and domestic servants. There was a Craig who was a tenant of the first Lord Ashleigh and fought with him in the Cromwellian wars as a trooper and since those days, so far as I can see, there has never been a time when there hasn't been a Craig in the service of our family. A fine race they seem to have been, until—"

"Until when?" Quest demanded. "The look of trouble had once more clouded the professor's face. He shrugged his shoulders slightly.

"Until Craig's father," he admitted. "I am afraid I must admit that we come upon a bad piece of family history here. Silas Craig entered the service of my father in 1858, as under gamekeeper. Here we come upon the first black mark against the name. He appears to have lived respectably for some years, and then, after a quarrel with a neighbor about some trivial matter, he deliberately murdered him, a crime for which he was tried and executed in 1867. John Craig, his only son, entered our service in 1880, and when I left England, accompanied me as my valet."

There was a moment's silence. "Lenora and I are sailing tomorrow," Quest said. "We are taking over the necessary warrants and shall bring Craig back here for trial."

The professor smoked thoughtfully for some moments. Then he rose deliberately to his feet. He had come to a decision. He announced it calmly, but irrevocably.

"I shall come with you," he announced. "I shall be glad to visit England, but apart from that I feel it to be my duty. I owe it to Craig to see that he has a fair chance, and I owe it to the law to see that he pays the penalty, if, indeed, he is guilty of these crimes. Is Miss Laura accompanying you, too?"

Quest shook his head. "From what the surgeons tell us," he said, "it will be some weeks before she is able to travel. At the same time, I must tell you that I am glad of your decision, professor."

"It is my duty," the latter declared. "I cannot rest in this state of uncertainty. If Craig is lost to me, the sooner I face the fact the better. At the same time I will be frank with you. Notwithstanding all the accumulated pile of evidence I feel in my heart the urgent necessity of seeing him face to face, of holding him by the shoulders and asking him whether these things are true. We have faced death together, Craig and I. We have done more than that—we have courted it. There is nothing about him I can accept from hearsay. I shall go with you to England, Mr. Quest."

## RULING WILL BE APPEALED

Ramsey County Judge Holds Road-house Law Illegal.

St. Paul, June 2.—Minnesota's anti-roadhouse law, passed by the last legislature, was declared illegally enacted by District Judge J. C. Michael when he discharged W. L. Kohlman, Lake Gervais, roadhouse keeper, the defendant in a test case.

The decision of Judge Michael resulted from a hearing on a writ of habeas corpus served on Sheriff John Wagoner for the release of Kohlman, who May 21 was held to the grand jury on an alleged violation of the new law May 10.

Judge Michael holds that the manner of passage was illegal, in that the bill, passed, under suspension of the rules of the house April 11, was so passed with less than the required two-thirds of the membership voting.

State officials said that they will appeal to the state supreme court for a ruling.

## BALKAN STATES BECOME UNEASY

Roumania and Bulgaria May Join the Allies.

## AUSTRIAN MINISTRY MEETS

Representatives From Berlin Are Said to Have Been Present When a Note Containing Roumania's Demands Was Discussed and a Decision Reached to Refuse Them.

London, June 2.—"According to news from the Austrian frontier," says the Morning Post's Berlin correspondent, "the Austrian ministry met Monday—representatives from Berlin being present—to discuss the Roumanian note. It is understood that Roumania's demands will be refused. The relations between the two countries are strained."

Rome, June 2.—The Rome papers and people are absorbed in the question of the possible entrance of Bulgaria and Roumania in the war. There was firm conviction among the people generally that Italy had only to declare war against Austria to bring in Roumania. But a week has passed and Roumania shows no disposition apparently to depart from her neutrality.

It is explained here in certain authoritative circles that Roumania is still negotiating with Great Britain, France and Russia for recognition of her claims.

Late advices are to the effect that Russia especially is not inclined to give way to what she considers rather exaggerated demands, particularly in view of the fact that Italy is at war, and this has already relieved the German and Austrian pressure chiefly in Galicia.

Excitation is general in Rome over the Italian air raid on Pola and the amount of damage done, as Pola is the greatest military port of Austria, is the center of the railways of Istria and having the natural defenses and fortifications.

The fact that an Italian airship was able to damage the arsenal, the railway station and other structures is taken as proof that the Austrian fleet, now at that port, is not entirely safe.

## AMOUNTS TO FLAT REFUSAL

London Times Comments on German Note to America.

London, June 2.—The Times in an editorial says: "Stripped of the irrelevancies in which Herr von Jagow loves to involve the issues of a controversy the German reply amounts to a flat refusal of the American demands and to a repudiation not less absolute of the doctrines on which these demands are based."

"In other words, Germany means to continue her submarine campaign as before and to practice the method of attack which President Wilson and Secretary Bryan brand as a violation of the rules of fairness, reason, justice and humanity."

"Germany places herself above all law. She scarcely affects concealment; she sweeps aside every principle and every safeguard of human rights which mankind have adopted throughout the centuries and substitutes international nihilism for them all."

## BIG FARM IS MOVIE SCENE

Students at Wahpeton School Take Part in Film Play.

Wahpeton, N. D., June 2.—For the first time in the history of motion pictures one of North Dakota's biggest farms was utilized as the background for a photoplay. Not only were pigs and chickens filmed, but a high tempered young bull, presented to the owner of the 3,000-acre farm by James J. Hill in recognition of prize winning corn raised, played one of the liveliest parts.

The Ford farm, five miles from Wahpeton, provided "Nature's Own Studio" and the performers were students of the North Dakota State School of Science.

## JACKSON COUNTY IS DRY

Wet Lead Wiped Out When Outlying Precincts Report.

Preston, Minn., June 2.—Jackson county is in the dry column by more than 1,000 votes. While early returns gave the wets a lead this soon was wiped out when results came in from outlying rural precincts. Out of thirty-two precincts four were wet.

## SMITH SEES LENGTHY WAR

Minnesota Congressman Bases Belief on Munitions' Contracts.

Washington, June 2.—Just before his departure for home Representative George R. Smith of Minneapolis made the prediction that the European war would be a protracted affair.

He bases his belief on information that comes to him concerning the nature of contracts that are being placed in this country for arms and other munitions of war.

## PROVIDES CAVALRY HORSES

Government Comes to Aid of the State Militia.

St. Paul, May 29.—Word has been received in St. Paul that the war department has allowed \$10,000 for the purchase of artillery horses for the Minnesota national guard. The money will be available July 1 and the horses will be quartered at Fort Snelling.

Six battalions of artillery, three in Minneapolis and three in St. Paul, have been drilling without horses for six months.

Fred B. Wood, adjutant general of the Minnesota guard, was delighted at news of the appropriation. He said the building of quarters for the horses at Fort Snelling would begin immediately.

The government has appropriated \$200,000 for the care of national guard horses throughout the United States.

## WILL HIRE NONUNION MEN

Chicago Contracting Carpenters Announce They Will Resume.

Chicago, May 31.—A serious phase of the building trades strike in Chicago developed when representatives of 650 allied carpenter contractors announced that Tuesday they will resume work on an open shop basis.

Hitherto the question has involved only wages. Disorder, it is feared, will follow any attempt to put non-union men to work. Sixteen thousand construction carpenters have been on strike for three months.

Lenora wrote down the message and went to the telephone to send it off. As soon as she had finished Quest took up his hat again.

"Come on," he invited. "The machine's outside. We'll just go and look in on the professor and tell him the news. Poor old chap, I'm afraid he'll never be the same man again."

They found the professor on his hands and knees upon a dusty floor. Carefully arranged before him were the bones of a skeleton, each laid in some appointed place.

"What about that unhappy man, Craig?" the professor asked, gloomily. "Isn't the Durham almost due now?"

Quest took over the cablegram from his pocket and passed it over. The professor's fingers trembled a little as he read it. He passed it back, however, without immediate comment.

"You see, they have been cleverer over there than we were," Quest remarked.

"Perhaps," the professor assented. "They seem, at least, to have arrested the man. Even now I can scarcely believe that it is Craig—my servant Craig—who is lying in an English prison. Do you know that his people have been servants in the Ashleigh family for some hundreds of years?"

Quest was clearly interested. "Say, I'd like to hear about that!" he exclaimed. "You know I'm rather great on heredity, professor. What class did he come from then? Were his people just domestic servants always?"

The professor's face was for a moment troubled. He moved to his desk, rummaged about for a time, and finally produced an ancient volume.

"This really belongs to my brother, Lord Ashleigh," he explained. "He brought it over with him to show me

some entries concerning which I was interested. It contains a history of the Hamblin estate since the days of Cromwell, and here in the back, you see, is a list of our farmers, bailiffs and domestic servants. There was a Craig who was a tenant of the first Lord Ashleigh and fought with him in the Cromwellian wars as a trooper and since those days, so far as I can see, there has never been a time when there hasn't been a Craig in the service of our family. A fine race they seem to have been, until—"

"Until when?" Quest demanded.

The look of trouble had once more clouded the professor's face. He shrugged his shoulders slightly.

"Until Craig's father," he admitted. "I am afraid I must admit that we came upon a bad piece of family history here. Silas Craig entered the service of my father in 1858, as under gamekeeper. Here we come upon the first black mark against the name. He appears to have lived respectably for some years, and then, after a quarrel with a neighbor about some trivial matter, he deliberately murdered him, a crime for which he was tried and executed in 1867. John Craig, his only son, entered our service in 1880, and when I left England, accompanied me as my valet."

There was a moment's silence.

"Lenora and I are sailing tomorrow," Quest said. "We are taking over the necessary warrants and shall bring Craig back here for trial."

The professor smoked thoughtfully for some moments. Then he rose deliberately to his feet. He had come to a decision. He announced it calmly, but irrevocably.

"I shall come with you," he announced. "I shall be glad to visit England, but apart from that I feel it to be my duty. I owe it to Craig to see that he has a fair chance, and I owe it to the law to see that he pays the penalty, if, indeed, he is guilty of these crimes. Is Miss Laura accompanying you, too?"

Quest shook his head.

"From what the surgeons tell us," he said, "it will be some weeks before she is able to travel. At the same time, I must tell you that I am glad of your decision, professor."

"It is my duty," the latter declared. "I cannot rest in this state of uncertainty. If Craig is lost to me, the sooner I face the fact the better. At the same time I will be frank with you. Notwithstanding all the accumulated pile of evidence I feel in my heart the urgent necessity of seeing him face to face, of holding him by the shoulders and asking him whether these things are true. We have faced death together, Craig and I. We have done more than that—we have courted it. There is nothing about him I can accept from hearsay. I shall go with you to England, Mr. Quest."

### RULING WILL BE APPEALED

Ramsey County Judge Holds Road-house Law Illegal.

St. Paul, June 2.—Minnesota's anti-roadhouse law, passed by the last legislature, was declared illegally enacted by District Judge J. C. Michael when he discharged W. L. Kohlman, Lake Gervais, roadhouse keeper, the defendant in a test case.

The decision of Judge Michael resulted from a hearing on a writ of habeas corpus served on Sheriff John Wagnen for the release of Kohlman, who May 21 was held to the grand jury for an alleged violation of the new law May 10.

Judge Michael holds that the manner of passage was illegal, in that the bill, passed under suspension of the rules of the house April 11, was so passed with less than the required two-thirds of the membership voting.

State officials said that they will appeal to the state supreme court for a ruling.

## BALKAN STATES BECOME UNEASY

Roumania and Bulgaria May Join the Allies.

### AUSTRIAN MINISTRY MEETS

Representatives From Berlin Are Said to Have Been Present When a Note Containing Roumania's Demands Was Discussed and a Decision Reached to Refuse Them.

London, June 2.—"According to news from the Austrian frontier," says the Morning Post's Berlin correspondent, "the Austrian ministry met Monday—representatives from Berlin being present—to discuss the Roumanian note. It is understood that Roumania's demands will be refused. The relations between the two countries are strained."

Rome, June 2.—The Rome papers and people are absorbed in the question of the possible entrance of Bulgaria and Roumania in the war. There was firm conviction among the people generally that Italy had only to declare war against Austria to bring in Roumania. But a week has passed and Roumania shows no disposition apparently to depart from her neutrality.

It is explained here in certain authoritative circles that Roumania is still negotiating with Great Britain, France and Russia for recognition of her claims.

Late advices are to the effect that Russia especially is not inclined to give way to what she considers rather exaggerated demands, particularly in view of the fact that Italy is at war, and this has already relieved the German and Austrian pressure chiefly in Galicia.

Excitation is general in Rome over the Italian air raid on Pola and the amount of damage done, as Pola is the greatest military port of Austria, is the center of the railways of Istria and having the natural defenses and fortifications.

The fact that an Italian airship was able to damage the arsenal, the railway station and other structures is taken as proof that the Austrian fleet, now at that port, is not entirely safe.

### AMOUNTS TO FLAT REFUSAL

London Times Comments on German Note to America.

London, June 2.—The Times in an editorial says: "Stripped of the irrelevancies in which Herr von Jagow loves to involve the issues of a controversy the German reply amounts to a flat refusal of the American demands and to a repudiation not less absolute of the doctrines on which these demands are based."

"In other words, Germany means to continue her submarine campaign as before and to practice the method of attack which President Wilson and Secretary Bryan brand as a violation of the rules of fairness, reason, justice and humanity."

"Germany places herself above all law. She scarcely affects concealment; she sweeps aside every principle and every safeguard of human rights which mankind have adopted throughout the centuries and substitutes international nihilism for them all."

### BIG FARM IS MOVIE SCENE

Students at Wahpeton School Take Part in Film Play.

Wahpeton, N. D., June 2.—For the first time in the history of motion pictures one of North Dakota's biggest farms was utilized as the background for a photoplay. Not only were pigs and chickens filmed, but a high tempered young bull, presented to the owner of the 3,000-acre farm by James J. Hill in recognition of prize winning corn raised, played one of the liveliest parts.

The Ford farm, five miles from Wahpeton, provided "Nature's Own Studio" and the performers were students of the North Dakota State School of Science.

### JACKSON COUNTY IS DRY

Wet Lead Wiped Out When Outlying Precincts Report.

Preston, Minn., June 2.—Jackson county is in the dry column by more than 1,000 votes. While early returns gave the wets a lead this soon was wiped out when results came in from outlying rural precincts. Out of thirty-two precincts four were wet.

J. W. Alexander, Artist, Dead.

New York, June 2.—John W. Alexander, artist, recently retired from the presidency of the National Academy of Design, died at his home here. Mr. Alexander was trustee of the Metropolitan Museum of Art and a member of many fine arts societies.

### SMITH SEES LENGTHY WAR

Minnesota Congressman Bases Belief on Munitions' Contracts.

Washington, June 2.—Just before his departure for home Representative George R. Smith of Minneapolis made the prediction that the European war would be a protracted affair.

He bases his belief on information that comes to him concerning the nature of contracts that are being placed in this country for arms and other munitions of war.

### PROVIDES CAVALRY HORSES

Government Comes to Aid of the State Militia.

St. Paul, May 29.—Word has been received in St. Paul that the war department has allowed \$10,000 for the purchase of artillery horses for the Minnesota national guard. The money will be available July 1 and the horses will be quartered at Fort Snelling.

Six battalions of artillery, three in Minneapolis and three in St. Paul, have been drilling without horses for six months.

Fred B. Wood, adjutant general of the Minnesota guard, was delighted at news of the appropriation. He said the building of quarters for the horses at Fort Snelling would begin immediately.

The government has appropriated \$200,000 for the care of national guard horses throughout the United States.

### WILL HIRE NONUNION MEN

Chicago Contracting Carpenters Announce They Will Resume.

Chicago, May 31.—A serious phase of the building trades strike in Chicago developed when representatives of 650 allied carpenter contractors announced that Tuesday they will resume work on an open shop basis.

Hitherto the question has involved only wages. Disorder, it is feared, will follow any attempt to put non-union men to work. Sixteen thousand construction carpenters have been on strike for three months.
